## Nespresso Essenza Mini with Aeroccino

### 19 BAR PRESSURE SYSTEM

Small but powerful, Essenza Mini uses an high pressure pump in order to brew the perfect cup of Espresso and Lungo.

### 2 CUSTOMIZABLE RECIPES

One button for Espresso (40 ml) and one for Lungo (110 ml). Both recipes can be customized by the user to suit every taste.

### COMPACTNESS

Thanks to its tiny footprint, it can easily fit in every corner of the house.

### ENERGY SAVINGS

3 minutes after the last brewing it will enter in Eco mode, while after 9 minutes it will automatically shut-off in order to save energy.

## Nespresso Lattissima Touch

### CAPSULE SYSTEM

The capsules provide the pressurised seal needed to preserve the aroma of freshly ground coffee. Packaging the coffee involves placing just the right quantity of ground coffee into aluminium capsules that are coated on the inside with a protective film. The capsules are hermetically sealed with aluminium foil, which protects the freshly ground coffee from air, light and humidity.

### AUTO SHUT OFF

Automatically shut off power 9 minutes after the last coffee brew to save energy

### 19 BAR PRESSURE

The 19 bar pump ensures perfect results in cup, delivering the correct amount of pressure and water flow according to the type of beverage selected. Consistent, high quality aroma no matter whether your desired flavour is mild or strong or your preferred length is short or long

### ONE TOUCH TECHNOLOGY

Prepare your perfect coffee and milk based beverages with a touch of a button. The innovative One Touch technology uses state of the art electronics with intuitive controls for simple and immediate use
