

Compress 5800i Hybrid Heat Pump

Homeowner guide

Future-flexible heating

The future of responsible home heating is here. By combining the CS5800i Heat Pump Outdoor Unit and your boiler*, the CS5800i Hybrid Unit delivers intelligent, energy-saving comfort right into your home.

Why choose the Compress 5800i Hybrid Heat Pump?

Reliable

All the efficiency of a heat pump, with a boiler to back it up

Easy

Enjoy a simple set-up by adding to your new or existing boiler*

Cost-efficient

Optimises between heat pump and boiler based on fuel prices

Low carbon

Hybrid heating could reduce your carbon footprint

Space-saving

Compact heating with no buffer tank or system changes needed

Flexible

Hybrid unit fits internally into a cupboard or onto an outside wall

Control your heating

CH120

EasyControl

Your hybrid system has two control options, with a choice of non-connected and connected wired solutions to suit your needs.

The new CH120 is a non-connected system controller that offers a seamless experience. The EasyControl allows you to comfortably manage your hybrid system remotely through the intuitive EasyControl app.

Configure your system

Your installer will help you configure the best set-up for your home.
