

Jabra Engage 65 Mono

How do I manually switch the audio from a desk phone connection to a softphone connection?

To switch from a desk phone connection to a softphone connection, follow these steps using your Jabra Engage 65 headset and base.

1. Wear the headset.
2. While the **Desk phone status** LED is lit white, press and hold (2 seconds) the **Call** button on the headset.
The headset will announce “softphone”.
3. Double press the **Call** button on the headset.
The **Computer status** LED will light green. This indicates that the audio path to the computer is open, and there is microphone and speaker audio for computer applications.
4. To return to the desk phone connection, press the **Call** button on the headset, or press the **End/reject call** button on the base.
The **Computer status** LED will light white and then turn off. The **Desk phone status** LED will light white.
