## **Common Troubleshooting**

We've got you covered! Our troubleshooting section is here to shed some light and provide you with easy-to-follow solutions for any problem.

If you still need some assistance, feel free to contact us. Our team of lighting experts are happy to help brighten your day.

#### Installation

Light isn't turning on.

Allow the light to fully charge in sunlight before operation.

#### **Turned On**

Light doesn't turn on when power button is pressed.

Allow the light to fully charge in sunlight before operation.

### Clean Panel

Light doesn't turn on when power button is pressed.

Verify the solar panels are free of dust, dirt, or debris. Debris on solar panels can reduce their efficiency.

#### Location

Light isn't turning on in certain locations.

Check for any obstructions or damage on the light.
