

SmallRig

**Super Clamp with 14-20
and 38-16 Threaded Holes
(2pcs)**

Operating Instruction

SmallRig Super Clamp with 1/4" and 3/8" Thread (2pcs Pack) 2058 is lightweight and durable. It could lock 15mm-44mm rods, which could be tightened by locking lever. It could be mounted onto anything like cameras, lights, umbrellas, hooks, shelves, plate glass, cross bars, even other Super Clamps very stably. It is equipped with 1/4" and 3/8" threaded holes for DIY operations.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
