

MYT APP – REMOTE CONTROLS

HOW TO USE EXTENDED CLIMATE CONTROL

FOR RAV4 PLUG-IN HYBRID AND TOYOTA bZ4X

EXTENDED CLIMATE CONTROL

MODELS SUPPORTED

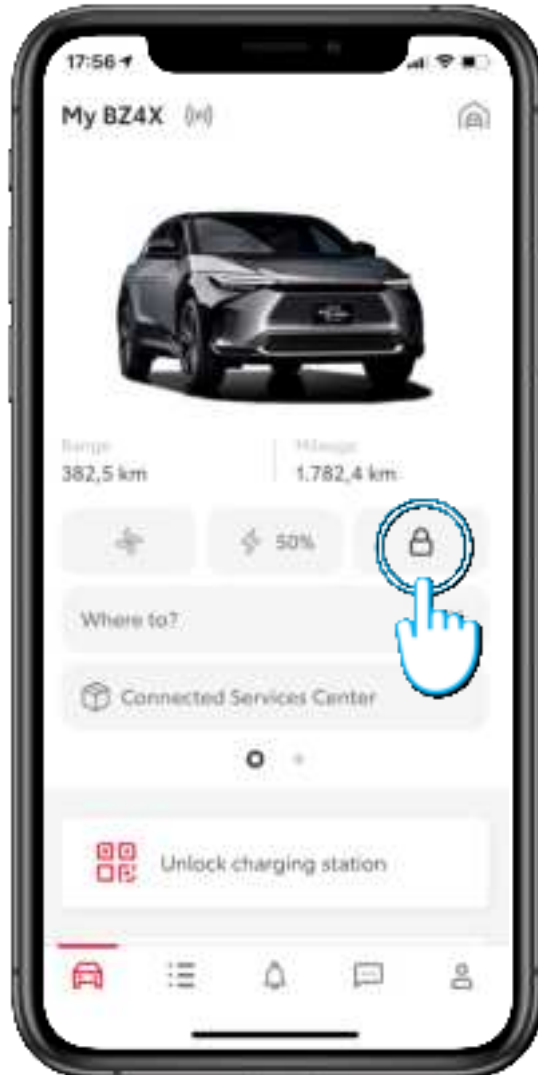

This type of Climate control is available on RAV4 Plug-in Hybrid and will be on Toyota bZ4X.

EXTENDED CLIMATE CONTROL

ENTRY POINT

User taps on the Climate Control button.

STEP 1

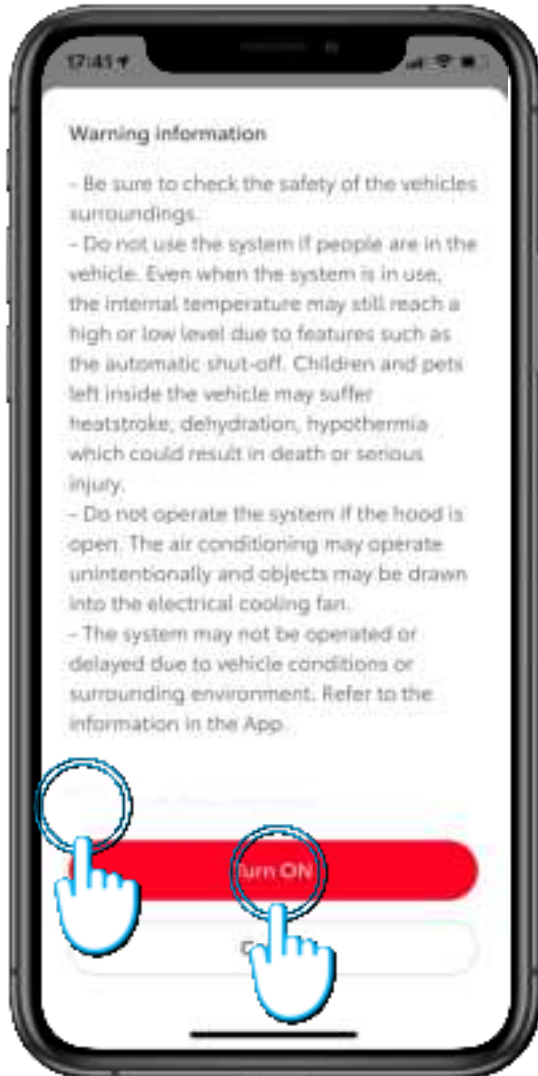

User is presented with the Climate Control feature where he/she can set the desired temperature and activate heating/defrost modules, depending on the availability per car model and package.

EXTENDED CLIMATE CONTROL

STEP 2

User is informed of the security & legality of the feature. This overlay is always displayed before activating Climate Control unless the user ticks the "Don't show me again" button.

STEP 3

The request for activating Climate Control is initiated.

EXTENDED CLIMATE CONTROL

STEP 4

User is informed of the successful activation of the service.

Expected time for the climate to be initiated is **10-30 seconds**.

STEP 5

As long the Climate Control is running, the user can check the following details:

- Timestamp when the data was last refreshed
- Set temperature
- Approximate time remaining
- Activated heating/defrost modules

When the Climate Control is running, the icon on the Car Section screen will be animated.

EXTENDED CLIMATE CONTROL

HOW TO SET SCHEDULE

EXTENDED CLIMATE CONTROL - SCHEDULE

ENTRY POINT

The user can access the Schedule on Climate Control screen while Climate Control is running (right screen) and when it's off.

Schedule button when Climate Control is running.

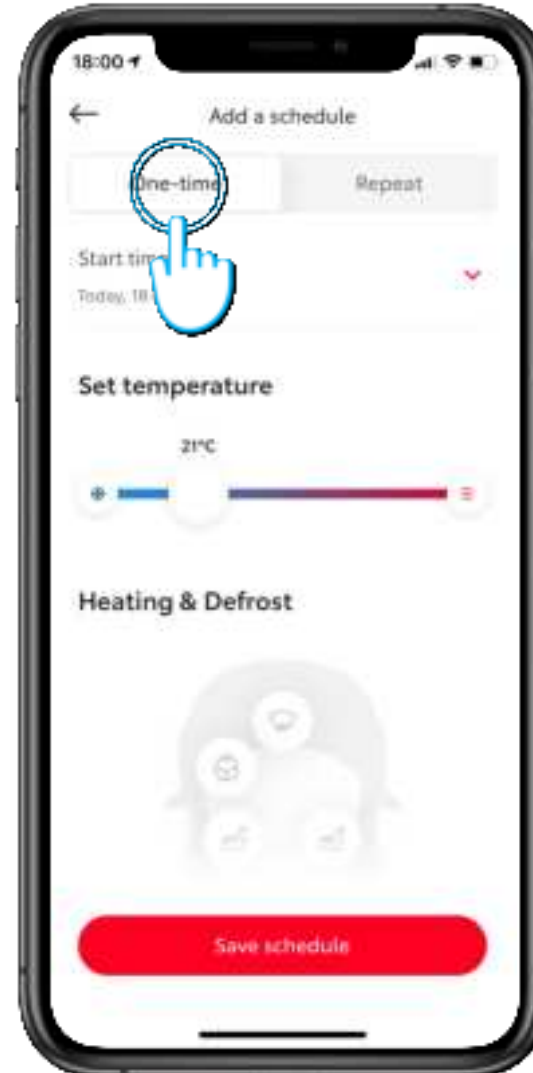

EXTENDED CLIMATE CONTROL - SCHEDULE

STEP 1

The user can view the list of schedules and summary of the schedule. Each schedule can be disabled from the list with the toggle button. Up to 10 schedules can be saved.

STEP 2

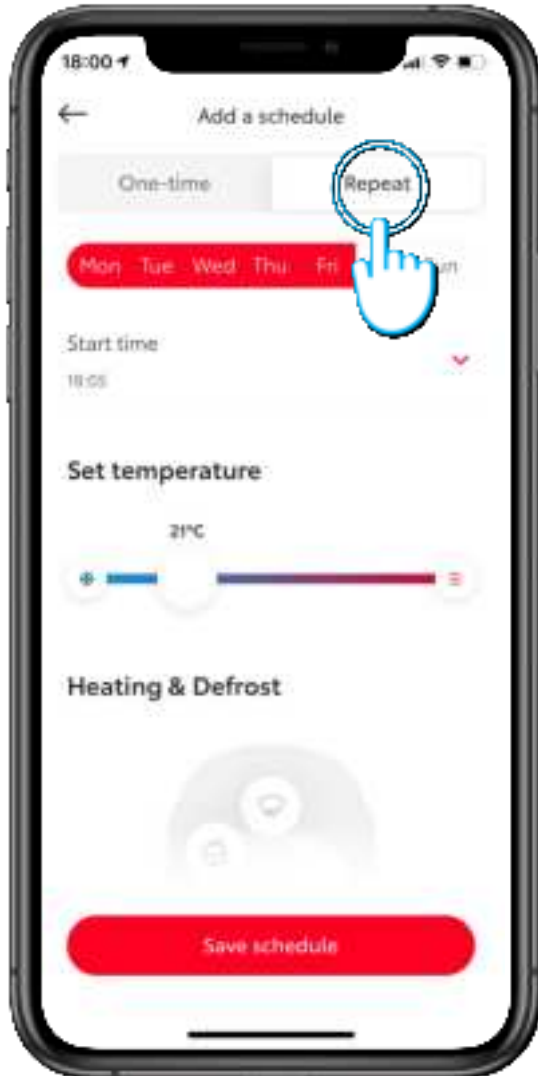

There are two types of Schedules:
One-time schedule

EXTENDED CLIMATE CONTROL - SCHEDULE
