

PREPAID CARRIER LIST

This list of carriers reflects a rolling 8-week performance history, providing a dynamic view of carriers that consistently deliver more than 10 shipments per week. It shows carrier service levels over the most recent [05/11/25-07/05/25] period for three key criteria: Scheduling Accuracy, Late-Arrival Rate, and No-Call/No-Show (). Carriers listed meet at least one of these performance thresholds which are highlighted in (green).

Carrier	SCAC	US DOT#	Ship Mode				Arrived Shipments (P50)	Scheduling Accuracy (First Pass Yield - FPY)	Late-Arrival Rate (OTA ₁₄₀₀)	No-Call/No-Show (NCNS)

1. This Prepaid carrier list is not an exhaustive list of carriers authorized to deliver to Amazon facilities. You may use a carrier not included on this list for your inbound deliveries. A carrier may not be shown on this list for a few reasons, including: 1) the carrier has not delivered to or has not onboarded as a carrier delivering to an Amazon facility, 2) in the rolling 8-week period, the carrier has not delivered a median of more than 10 shipments per week, 3) the carrier does not have an active USDOT number associated with their carrier account or has an operating tenure of less than 2 years, or 4) the carrier is not authorized to deliver into Amazon facilities.
2. Carriers in this list are ordered based on a combination of their Arrived Shipment Volume band, number of objective criteria met, and USDOT tenure (oldest to youngest). Each carrier on this list should be evaluated based on your specific needs and preferences.

1. This Prepaid carrier list is not an exhaustive list of carriers authorized to deliver to Amazon facilities. You may use a carrier not included on this list for your inbound deliveries. A carrier may not be shown on this list for a few reasons, including: 1) the carrier has not delivered to or has not onboarded as a carrier delivering to an Amazon facility, 2) in the rolling 8-week period, the carrier has not delivered a median of more than 10 shipments per week, 3) the carrier does not have an active USDOT number associated with their carrier account or has an operating tenure of less than 2 years, or 4) the carrier is not authorized to deliver into Amazon facilities.

2. Carriers in this list are ordered based on a combination of their Arrived Shipment Volume band, number of objective criteria met, and USDOT tenure (oldest to youngest). Each carrier on this list should be evaluated based on your specific needs and preferences.

Carrier	SCAC	US DOT#	Ship Mode				Arrived Shipments (P50)	Scheduling Accuracy (First Pass Yield - FPY)	Late-Arrival Rate (OTA _{late})	No-Call/No-Show (NCNS)
