LED STANDING LAMP

SKU: MED-115

BASIC ASSEMBLY & USE INSTRUCTIONS

- ASSEMBLY STEPS:**
- 1. ASSEMBLE THE LAMP BODY:** Locate the segmented lamp poles. Align and screw each section together tightly.
 - 2. ATTACH TO THE BASE:** Align the bottom pole with the base plate. Secure the pole to the base using the provided fastening mechanism. Ensure the connection is stable and upright.
 - 3. CONNECT THE POWER ADAPTER:** Insert the power adapter plug into the corresponding port on the pole.
 - 4. POWER THE LAMP:** Plug the adapter into a standard wall outlet.

OPERATION INSTRUCTIONS: **ADJUST THE HEIGHT & ANGLE:** Use the adjustment knobs along the lamp pole to raise or lower the lamp head and modify its angle for optimal lighting.

TURN ON/OFF & ADJUST LIGHT SETTINGS: Use the integrated switch to turn the lamp on or off. If applicable, tap or press the switch/button again to toggle through light temperature or brightness levels.

- SAFETY TIPS:**
- Use indoors only.
 - Do not use near water or expose to moisture.
 - Unplug the lamp when not in use or before cleaning.
 - Ensure all connections are secure before powering on.
