

Mini Split Tray Cable

- Use for systems where the indoor unit is powered from the condenser.
- Install in conduit indoors or in-wall.
- In states where the 2017 NEC has been adopted, it may be installed in-wall without conduit in one- and two-family dwellings.
- Sunlight resistant and suitable for direct burial.

AWG	Stranding	Number of Conductors	Shielding	Listing	Part Number
14	Stranded	4	Unshielded	Type TC-ER-JP 600V, Direct Burial, Sunlight Resistant	1070
14	Stranded	7	Unshielded	Type TC-ER-JP 600V, Direct Burial, Sunlight Resistant	1073
16	Stranded	4	Unshielded	Type TC-ER-JP 600V, Direct Burial, Sunlight Resistant	1068
14	Stranded	3	Unshielded	Type TC-ER-JP 600V, Direct Burial, Sunlight Resistant	1069
