- With streamlined contemporary design and generous, flexible storage for all your chilled and frozen foods.
- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
 - Spacious bottom freezer with easy-slide internal drawers to separate storage

DIMENSIONS

Height	1720 mm
Width	680 mm
Depth	695 mm

FEATURES & BENEFITS

- Easy Cleaning**
- No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.
- Simple Storage**
- This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

- Design Quality**
- Our refrigerators are designed and built using quality materials. We use real stainless steel, and solid glass for shelving as well as in our wine cabinet doors.
- Clever Energy**
- Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.
- Easy Living**
- These refrigerators adapt to suit your lifestyle with accessible SmartTouch controls, flexible shelving and storage options, and slide-out bins and trays.
- Easy Cleaning**
- Removable, spill-safe glass shelves are easy to clean and contain drips and spills. Storage bins and EZKleen stainless steel doors just need a wipe to keep spotless.
- Humidity Control**
- Your fruit and veges need different environments. The humidity control slides in each storage bin create a perfect microclimate for each, which helps keep them fresher for longer.

SPECIFICATIONS

Capacity	
Total net volume	398L
Consumption	
Energy consumption	562kWh/year
Energy rating	2 ticks
In-use energy carbon emissions estimate	215.4kgCO2e/year

Features

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
