Important safety instruction

1. Please read the instruction carefully. Keep it in safe place for future reference.
2. Keep the unit away from moisture.
3. Install the instrument properly by following the instructions in the device connection section.
4. Do not block any ventilation openings. Ensure adequate ventilation.
5. To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.
6. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
7. Do not install in an enclosed area, such as bookcase or similar unit.
8. To avoid risk of electric shock, do not touch the inner parts of this product. Only qualified service personnel should open the enclosure.
9. Do not place any naked flame sources, such as lighted candles, on the apparatus.
10. To avoid damage that may require extensive restoration work, disconnect the unit from the mains if it starts to malfunction.
11. Do not overload wall outlets and extension cords as this can result in fire or electric shock.
12. Do not subject the power cord to physical abuse. Do not move the unit with the power cord plugged in. Do not place heavy objects on the power cord. Handle the power cord by the plug. Do not pull out the plug by yanking the power cord. When unplugging the power cord, hold the plug. Route the power cord so that it is not likely to be walked on or pinched by items placed upon or against it. Pay particular attention to the plug, wall outlet, and the point where the cord exits the unit.
13. Unplug the unit during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the unit has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the unit, the unit has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. Do not use the unit in tropical and/or moderate climates.
16. Do not use the unit in extremely dusty environments.
17. Do not use the unit in areas where there is a risk of explosion.
18. Do not use the unit in areas where there is a risk of gas leakage.
19. Do not use the unit in areas where there is a risk of water splashing.
20. Do not use the unit in areas where there is a risk of water splashing.
21. Do not use the unit in areas where there is a risk of water splashing.
