connected smart home

**Get started
with your new
GE imagine Lights**

works with
Hey Google

seamless setup with
Google Home app

Seamless Setup

1

Plug in your
Google Nest device
(smart speaker)

2

In the same room, fit the
bulb and turn on the light.
The light will start
blinking and waiting to be
added in Google Home App

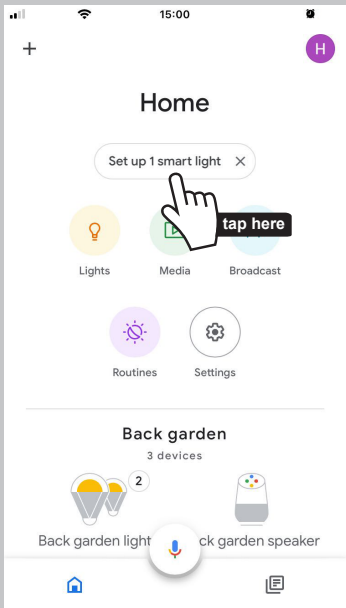

3

Download the
Google Home
App and follow
the prompts to
easily set up

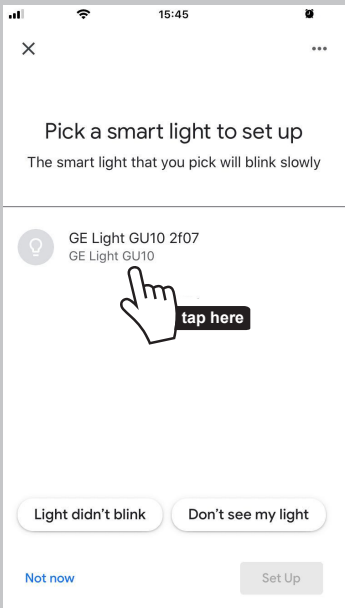

4

Set up smart light

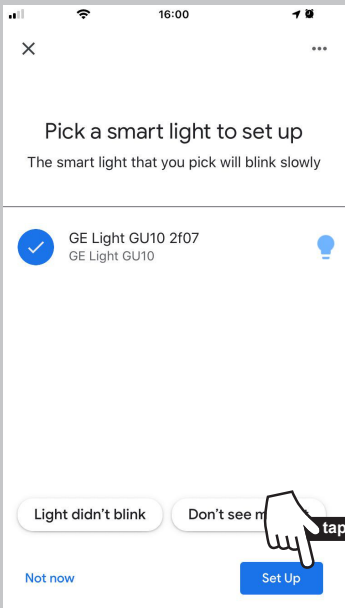

5

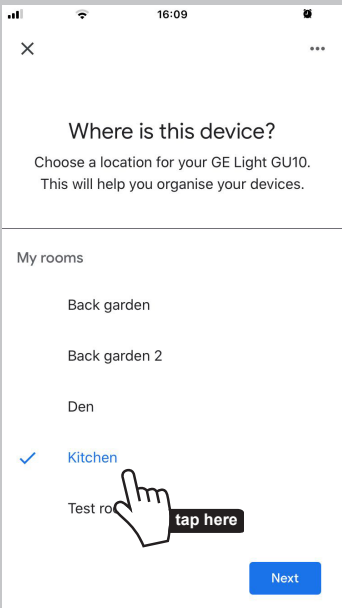

Pick smart light to set up

6

Select smart light and tap Set up

8 Create a unique name and tap Next

The screenshot shows a mobile app interface with a status bar at the top displaying signal strength, Wi-Fi, and the time 16:09. The app has a white background with a close button (X) in the top left and a menu button (three dots) in the top right. The main heading is "Create a unique name", followed by the instruction: "Give your smart light a unique name so that you don't mix it up with other devices in the same room". Below this is a text input field labeled "Device name" containing the text "smart light". To the right of the input field is a character count "13 / 24". A hand icon points to the input field with a "tap here" label. At the bottom right, a hand icon points to a blue "Next" button with another "tap here" label.

Troubleshooting

Problem: If there's no blinking from light after powering on.

Solution: Please follow below Factory Reset process.

Turn power On & Off 5 times then leave on, each time using light switch:

1) On & Off, 2) On & Off, 3) On & Off, 4) On & Off, 5) On & Off, then On again

light should now start to blink

After performing the above On & Off cycle, if light does not blink, please redo the above On & Off cycle (factory reset) again.

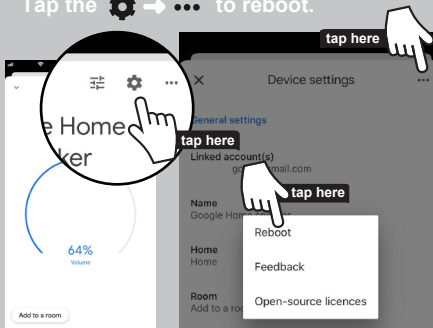

Confirm the light blinks and
go to step **4**

Problem: The light can be added successfully, but cannot be controlled.

Solution: Please follow below to reboot the Google Home.

Tap the    to reboot.
