

TWS earphones with charging case and LCD screen

SKU: MHTWSKOMBOBK

A pair of compact wireless earphones with a charging case

A COMPACT WIRELESS DESIGN

If you are looking for an **understated** and easy-to-use option, look no further than the Kombo earphones. They light up as soon as they are taken out of the case, and you can immediately pair them with your **smartphone, tablet, or laptop** with **wireless** connectivity. After the first pairing, they will automatically connect whenever you want to use them. You can enjoy **3 hours of wireless use**: the Kombo earphones offer maximum freedom of movement in your everyday life. What's more, thanks to the built-in microphone, you can also make calls.

THE CHARGING CASE LETS YOU HARNESS YOUR POWER

When they are out of battery, the Kombo earphones can be recharged by simply placing them inside the **charging case**, no matter where you are, with **no need to connect to a power source**. And when the case runs out of power, connect it to a power bank or a charger using the included **USB-A - USB-C** cable. The **integrated LCD screen** displays the **remaining charge** for both the earphones and the case. As a result, you can always make sure you have enough power, avoiding any nasty surprises.

INTEGRATED TOUCH BUTTONS

On the earphones, you will find controls to **manage your music and calls at the touch of a button**. You can play/pause a song, change tracks, answer/end/reject a call, and activate the voice assistant. Play sports, cook or take a walk without constantly having to take your smartphone out of your pocket.
