installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

6

Technical Parameters:

Output power:	15W	Charging current:	110-240 AC
Battery capacity:	1800mAh	Working time:	4-5 hours
Size: 3.35 × 0.79 × 4.13 inches		Weight:	6.07oz

FCC Warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

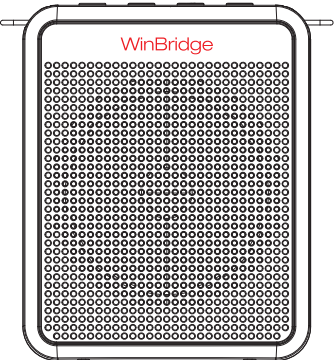

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential

1

How to Amplify Voice

Operation is straight forward: turn on the speaker, plug the headset microphone into the MIC jack, and then you can output sound.

How to Connect Bluetooth

Long press 📶 to power on, then short press the M button to switch to Bluetooth model, the speaker emits a “beep” prompt. Open your Bluetooth device, such as a phone, and search for Bluetooth named WB008. Click to pair, and when the pairing is successful, the speaker will emit another “beep” prompt. In music model, short ⏮ to switch to the previous track, short ⏭ to switch to the next track.

How to Wear Voice Amplifier Unit

Take out the voice amplifier unit, fasten the strap to metal hooks on both sides, then tie it on the waist or hung on your shoulder, the strap is adjustable. You can also use the back splint to clinch the voice amplifier on the waistband or trousers.

2

How to Charge Voice Amplifier

Please plug the type c head of charging cable into DC jack on voice amplifier, and connect another USB head into any DC 5V adapter to charge unit.

Please be noted that an adapter is not included.

3

Speaker Charging Status:

The battery indicator lights flash while charging, and the indicator lights keep constantly light when fully charged.

Please Noted:

1. Please use a DC 5V - 2A plug to charge voice amplifier.
2. Plug adapter into 110-240 AC outlet, connect the charging cable end into DC 5V - 2A power input on speaker.
3. In order to extend the life of the internal battery, please charge unit regularly even if system is not being used.
4. Please DO NOT over charge the battery by leaving the system plugged in continuously. This will reduce the life of the internal rechargeable battery and cause over heating.
