- Click-on body comb (3 mm)
- Charge anytime, anywhere
- Click-on skin guard for sensitive areas
- Fully waterproof

Comfortable shave

- Shave it off
- Innovative 360 Blade

Even trim

- Unique OneBlade Technology
- 5-in-1 adjustable comb

Highlights

Unique OneBlade Technology

Philips OneBlade has a revolutionary technology designed for facial grooming. It can shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (12000x per min) so it's efficient – even on longer hairs.

Innovative 360 Blade

The innovative 360 Blade can flex in all directions to adjust to the curves of your face. The design enables constant skin contact and control. Easily trim and shave hard-to-reach areas — with just a few strokes and great comfort.

Trim away

Unique open comb design for an efficient trim without clogging and interrupting your routine – even on long and thick hair.

Shave it off

OneBlade does not shave as close as a traditional blade – so your skin stays comfortable. Go against the grain and easily shave off any length of hair on your face or body. Includes two blades – one for face and one for body.

Dual-sided blade

OneBlade follows the contours of your face, allowing you to easily and comfortably trim and shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

Click-on skin guard

Attach the skin guard for an extra layer of protection on sensitive areas.

Click-on body comb

Attach the body comb (3 mm) for an easy trim in any direction.

Blade that doesn't fade easily

Stainless steel blade that lasts up to 4 months of use** to keep that fresh feel. When the eject icon appears on the blade, the blade performance may no longer be optimal. It is time to consider changing the blade for the best shaving experience

USB-A charging

Can be charged at home or on the road, perfect for your daily routine and for travel.
