### Introduction

Thank you for using DispCam for Windows!

[DispCam for Windows](#) is an excellent video downloading tool that has the download capability that can help users download high-quality movies and TV shows from Disney Plus. By virtue of the powerful search function, it is easy for DispCam to search for Disney Plus titles by name or URL from the web player. Armed with a concise interface, the most advanced downloading core, and a fast download speed, DispCam can directly download Disney Plus content from the web player and save the downloaded video in MP4 or MKV format, making it possible to play Disney Plus titles on any device without an internet connection.

In addition to downloading HD videos from Disney Plus, DispCam also offers the option of selecting multiple language audio tracks and subtitles for downloading, as long as a video is available on the web player with multi-language audios and subtitles supported. DispCam is compatible with Windows 10/8/8.1/7, so you can download any videos on the computer or transfer them to other devices as your need.
