Monoprice™ USB4 Gen 2 Silicone Cable – 20Gbps, 8K60Hz with DSC, 240W PD 3.1, Ultra Flexible

Next-Gen Speed and Power in a Flexible, Tangle-Free Design

Get high-performance connectivity with Monoprice™ USB4 Gen 2 Silicone Cables a flexible, next-generation solution built for speed, power, and durability. Engineered to support up to 20Gbps data transfer, this cable enables ultra-fast file transfers, seamless video streaming, and high-speed charging all-in one compact form. Designed for modern USB-C devices, it supports 8K60Hz resolution with DSC (Display Stream Compression) and 8K30Hz without compression, making it ideal for advanced media displays and high-refresh-rate gaming setups. The USB Power Delivery 3.1 enables fast charging up to 240W, ensuring reliable power delivery for laptops, tablets, and other high-consumption devices.

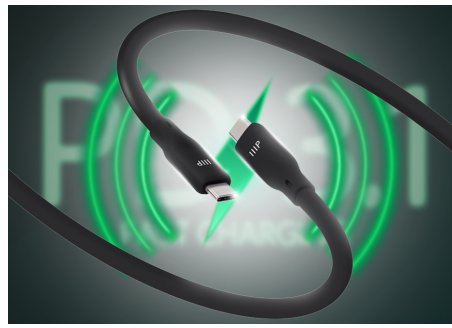

Unlike standard PVC or TPE options, this cable features a premium silicone jacket that delivers exceptional flexibility, a soft-touch feel, and excellent tangle resistance perfect for mobile professionals and desktop setups alike. Whether you're connecting a MacBook®, docking station, external drive, or 8K monitor, this USB4 Gen 2 cable delivers the reliable performance and universal compatibility needed to power today's most demanding workflows.
