

Honeywell DH90 Whole-House Dehumidifier

Honeywell's DH90 is the only Whole-House Dehumidifier on the market to feature an integrated ventilation port and bundled control that automatically provides optimum moisture control without the need for added accessories. Plus, the DH90 offers more moisture removal while using less energy and comes standard with a MERV 11 filter.

*Honeywell Air Cleaners meet
American Lung Association® Health House®
guidelines and feature the ALA logo.*

Compare Honeywell To Aprilaire And See The Honeywell Advantage

The Facts Speak For Themselves

Honeywell DH90
90-Pint Whole-House Dehumidifier

Energy Savings. The DH90 uses only 6.2 amps of power, while removing 90 pints of water.

Built-in ventilation port allows for simple ventilation activation.

Simple to set Fresh Air Ventilation Control. Includes optional W8150 Ventilation Control to automatically regulate cycle time and periods to ASHRAE 62.2 standards based on size of home, number of rooms and airflow rate.

Aprilaire® Model 1700
90-Pint Whole-House Dehumidifier

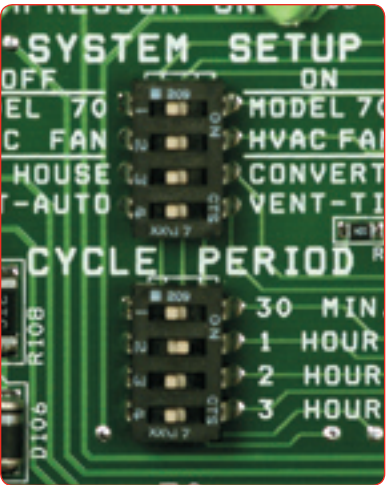

Uses 8.6 amps of power to remove 90 pints of water.

Separate outside ventilation ducting kit required for ventilation activation.

Installer must manually calculate cycle time and period to set ventilation controller.

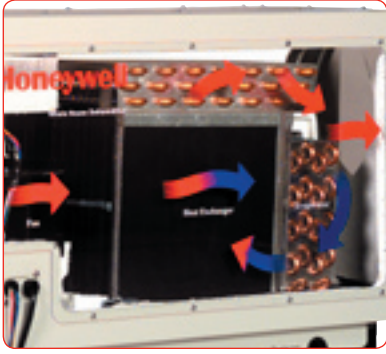

Honeywell DH90
90-Pint Whole-House Dehumidifier

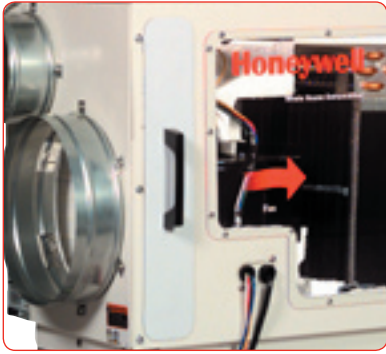

MERV 11 Filter. Provides high efficiency filtration.

Heat Recovery Core. Incoming air enters core to cool air temperatures before dehumidification. Cooler air removes more moisture.

Insulated magnetic filter door decreases leakage.

Packaged Controls. Choose the standard Honeywell H89908C Dehumidistat or upgrade to VisionPRO IAQ with integrated humidity, temperature and ventilation with no new wires to pull.

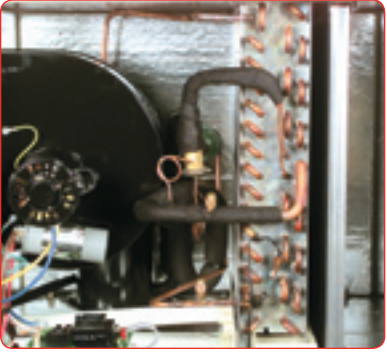

Aprilaire® Model 1700
90-Pint Whole-House Dehumidifier

MERV 8 Filter.

Incoming air enters and flows directly past the evaporator and condenser coils with no additional cooling.

Filter door has no insulation, resulting in leakage.

Optional Accessories. Aprilaire Model 70 Dehumidistat is an optional accessory that needs to be purchased separately in order to control dehumidification within the home.
