The Ultimate
Driving Machine®

Revolutionary performance; revelatory style.

Fresh ideas.

We've planted more power under the hood.

Fast company.

Manual, STEPTRONIC automatic, or Sport Automatic 6-speed transmission?

Freedom of choice.

In addition to color, upholstery and comfort features, BMW lets you...

Personalize your performance.

Enjoy inner control.

Luxury within your reach.

Fast buildup of pressure: the two parallel turbochargers (shown in blue) make a key contribution to the outstanding responsiveness of the 535i/535xi's inline six-cylinder engine.

Portrait of a masterpiece: the 535i/535xi twin-turbo engine produces 300 horsepower at 5800 rpm, and quickly develops 300 lb-ft of torque at 1400 rpm, which continues without fading through to the 5000 rpm range. With such a broad range of powerful torque, you can enjoy smooth, robust acceleration in any gear, at any speed.

The challenge: Increased power and torque. Decreased 0-60 times. The result: Mission accomplished.

Engines are our passion. That's why a BMW engine does not just deliver power and performance – it does so with smoothness and efficiency. Our ongoing challenge: to improve each of these characteristics with the introduction of every new engine. And in the 2008 5 Series, we have definitely achieved this goal.

Beneath the long hoods of the 5 Series Sedans lie three of the world's most sophisticated engines. Generating 300 horsepower and 300 lb-ft of torque, the revolutionary twin-turbo in the 535i/535xi accelerates with a force that throws you back in your seat and doesn't stop until redline. Turbo lag is a thing of the past – thanks to BMW's inspired use of two turbochargers, all you experience is strong, quick acceleration on demand, with the 535i reaching 60 mph in just 5.6 seconds.¹ BMW engineers have also overcome the traditionally poor gas mileage of turbocharging. By using a high-precision piezo fuel-injection system, every ounce of fuel is maximized. The lightweight aluminum engine block, extra-light camshafts, and BMW's Double-VANOS technology further enhance its smooth power delivery and lowered emissions. And with the engine's inline configuration, it runs with a smoothness not possible in a V-6.

Hit the accelerator of the 528i, and in 6.5 seconds,² you've reached 60 mph, thanks to its potent 230-horsepower engine. The lightweight composite magnesium/aluminum engine block adds to the 528i/528xi's spirited acceleration and nimble handling. And with 200 lb-ft of torque, the power pours on early and strong, and continues throughout the power band.

Refined power and unmatched performance: the hallmark of the 550i Sedan, courtesy of its mighty 4.8-liter V-8 powerplant that produces 360 horsepower at 6300 rpm and 360 lb-ft of torque at just 3400 rpm. Another power-increasing feature is a two-stage intake manifold that provides two different intake lengths: one for low to medium speeds, and the other for high engine speeds.

The 528i/528xi and 550i models offer BMW's revolutionary Valvetronic electronic valve control system, which provides fully variable valve lift control to help the engine "breathe" more easily. You enjoy greater power, higher torque, quicker engine response, a smoother idle, and optimized fuel efficiency. Another inspired technology incorporated into all BMW engines is Double-VANOS, an engine management system that allows the engine to "steplessly" choose the valve timings for both intake and exhaust camshafts.

The 2008 5 Series channels power through a choice of 6-speed transmissions. The smooth-shifting manual transmission is standard³; the STEPTRONIC automatic, with its new, ergonomically designed electronic shift knob, is now offered as a no-cost option. A new Sport Automatic, with shift paddles on the steering wheel, is available as an option in the 535i and 550i.⁴

¹ Manual transmission (available as of Sept. 2007 production); 5.7 seconds, STEPTRONIC automatic. BMW AG test results. Obey local speed laws and always wear safety belts.

² Manual transmission; 7.1 seconds, STEPTRONIC automatic. BMW AG test results. Obey local speed laws and always wear safety belts.

³ 535i/535xi: manual transmission available as of September 2007 production.

⁴ Requires Sport Package; available as of June 2007 production.

Because slippery roads love to throw you a curve:
The 5 Series Sedan with xDrive all-wheel drive.

BMW's intelligent xDrive all-wheel-drive system¹ takes all-road traction to new heights, while maintaining the 5 Series' legendary agility. On smooth, dry roads, the 528xi and 535xi have the feel of their rear-wheel-drive stablemates. But hit a wet uphill curve, for instance, and even before wheelspin can occur, the xDrive system immediately recognizes any need for a change in power distribution. Almost

instantaneously, xDrive can send more torque to the front axle in order to achieve optimal stability. Should one wheel on an axle spin faster than the other, the brakes can be applied individually, as needed, to bring all wheels back in sync. At any given moment, xDrive is working hard, shifting drive power, reducing over- or understeer, enhancing agility, and providing the best possible traction.

¹xDrive is standard in 528xi and 535xi; not available in 528i, 535i and 550i.

By using readings from the Dynamic Stability Control (DSC) sensors and the gas pedal, xDrive continually monitors the vehicle's driving condition. This data is then used to vary power distribution between the two axles, ensuring agile, neutral and forgiving handling at all times.

■ Standard equipment □ Optional equipment

■/□ **Xenon Adaptive Headlights** provide brilliant clarity of the road ahead and to the side at night and in conditions with poor visibility. The dynamic auto-leveling feature adjusts for varying passenger and cargo loads, helping to keep headlight glare out of the eyes of oncoming drivers. **BMW Adaptive Headlights** provide optimum road illumination around corners, thanks to an electromechanical control system that directs the headlights into and through the bend as soon as the vehicle begins cornering. (std. 535i/535xi and 550i; opt. on 528i/528xi)

■ **Adaptive Brake Lights** increase vehicle visibility and signal the intensity of your braking action.

■ **Redesigned taillights** add fresh, dramatic flair with raised horizontal ribbing and restyled white reverse lights.

■ **Two-way power glass moonroof** with remote, expanded one-touch operation, slides forward or tilts up to let in as much fresh air and sky as you like, while a wind deflector helps keep the wind out. Includes a sliding interior sunshade.

■ Standard equipment □ Optional equipment

■ **17 x 7.5 Star Spoke (Style 138) cast alloy wheels with 225/50R-17 all-season tires.**
(std. on 528i/528xi)

■ **17 x 7.5 Star Spoke (Style 243) cast alloy wheels with 225/50R-17 all-season tires.**
(std. on 535i/535xi)

■ **17 x 8.0 Star Spoke (Style 245) cast alloy wheels with 225/50R-17 all-season tires.**
(std. on 550i)

□ **18 x 8.0 Star Spoke (Style 246) cast alloy wheels with 245/40R-18 run-flat performance tires.¹** (incl. in 528i Sport Package, opt. with 528xi Sport Package; spare is a space-saver wheel and tire)

□ **18 x 8.0 front, 18 x 9.0 rear Star Spoke (Style 124) cast alloy wheels with 245/40R-18 front, 275/35R-18 rear run-flat performance tires.¹** (incl. in 535i Sport Package, opt. with 535xi Sport Package; spare is a space-saver wheel and tire)

□ **19 x 8.5 front, 19 x 9.5 rear Double Spoke (Style 172M) cast alloy wheels with 245/35R-19 front, 275/30R-19 rear performance tires.¹** (incl. in 550i Sport Package; spare is a space-saver wheel and tire)

¹Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow.

550i Sport Package:

The 550i Sport Package heightens the athletic character of this impressive luxury-performance Sedan. The exterior is enhanced by shadowline trim and larger, more attention-grabbing cast alloy wheels with performance tires.¹ An Aerodynamic package, which includes front and rear fascias and lower side molding, befits the 550i's commanding presence. Adding a Retuned sport suspension calibration and Active Roll Stabilization (ARS) gives the 550i a track-bred feel and enhanced stability. The exhaust has been tuned with a sportier sound, delivered through distinctive 550i exhaust tips. Inside, a 3-spoke, leather-wrapped multi-function sport steering wheel and 20-way power multi-contour front seats underscore its sporting nature, while a shorter throw of the gearshift knob increases driving joy for those who opt for the slick-shifting, 6-speed manual transmission.

¹ Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow. Spare is a space-saver wheel and tire.

Shown in Carbon Black Metallic paint, exclusive to 550i Sport Package. See page 41 for full listing of available paint colors.

Aerodynamic package's front air dam and bumper underscore the purposeful look of the 550i, while providing a visual clue to the power of the 4.8-liter V-8 that resides under the hood.

19 x 8.5 front, 19 x 9.5 rear Double Spoke (Style 172M) cast alloy wheels with 245/35R-19 front, 275/30R-19 rear performance tires.¹ (spare is a space-saver wheel and tire)

¹Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow.

3-spoke leather-wrapped multi-function sport steering wheel lets you keep both hands on the wheel while adjusting various comfort functions, such as radio stations, CD selections and volume.

20-way power multi-contour front seats provide optimum lateral support. The seats offer power adjustment for backrest and seat bottom angle; forward/backward and up/down position; thigh, upper back and lumbar support; adjustable sides; and active head restraints.

Aerodynamic package's rear spoiler, bumper treatment, and lower side molding are complemented by the handsome 19" Double-Spoke (Style 172M) cast alloy wheels, with 245/35R-19 front and 275/30R-19 rear performance tires.²

²Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow. Spare is a space-saver wheel and tire.

All dimensions are shown in inches and apply to models with standard wheels.
NOTE: Measurements do not include vehicle width from mirror to mirror.

Figures in () apply to vehicles with automatic transmission, if different from manual transmission.

¹Top speed limited electronically.

²BMW AG test results. Actual acceleration results may vary, depending on specification of vehicle; road and environmental conditions; testing procedures and driving style. These results should be used for comparison only and verification should not be attempted on public roads. BMW urges you to obey all posted speed laws and always wear safety belts.

³Fuel consumption figures not available at time of printing. Please refer to bmwusa.com for fuel consumption information. EPA-estimated figures are for comparison purposes only. Your actual mileage will vary, depending on speed, driving habits, trip length and driving conditions; actual mileage will most likely be lower.
