Instructions for use

For the first time, please charge the 10,000 mAh Powerbank fully before using it to charge your mobile phone devices.

Steps to follow for the Powerbank charging process:

[Please note: Since 10,000 mAh Powerbank has both a micro as well as Type-C input ports; you may use a USB-A to Micro or USB-A to Type-C cable as available to charge this Powerbank'.]

- Please connect the USB-A port of your charging cable into the AC Adapter or any electronic device which has the output: USB-A DC 5V;
- Now, plug the Type-C or Micro Connector of the same cable into the Powerbank's Type-C or Micro Input Port,

- The Powerbank's led lights shall come-on indicating the powerbank is charging successfully.

Steps to follow for the Powerbank to charge other Phone devices:

- Please connect your USB-A port of the charging cable to the Powerbank's USB-A output port
- Now, connect the other end of the Micro USB port to the mobile devices you wish to charge and your phone device should start charging.

Important Safety Instructions:

- Please do not use this powerbank with any other electronic products that exceeds the specifications of the product which might lead to malfunction and damage to the Powerbank;
- Please do not place this Powerbank in water or at any wet place, please keep it dry to prevent any damage or to avoid electric shock;
- Please do not attempt to disassemble the powerbank or allow any non-professional technician to perform repairs.
