- Three Rapid Tones Ready to pair
- Single Chime Paired
- Two Rapid Dings Low battery
- Quick Beep Next(R) / previous(L) song

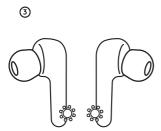

pairing

To pair the earbuds to your device for the first time open the case and remove both earbuds.

The buds will start to flash red and white, this means that they are ready to pair.

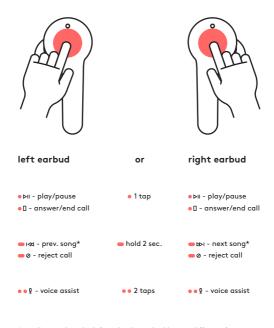

Use the Bluetooth settings on your device to pair with HEYDAY EARBUD 05. When the earbuds have successfully paired they will turn white five seconds and then fade.

To reenter pairing put both earbuds back in the charging case with the lid open. Hold the reset button on the back so the case power indicator flashes 3 times. To reset to factory settings hold it so the indicator flashes 6 times. After reentering pairing or resetting start the pairing process at step 1.

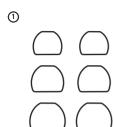

touch controls

quick tip: the touch sensor is located in the center of the earbud, be sure to touch here so inputs register

^{* -} indicates that the left and right earbud have a different function

earbud tips

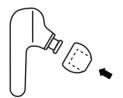

The earbuds come with small, medium and large earbud tips and can be changed at any time.

To change the size of the earbud tip, squeeze it and pull it away from the earbud.

Select the size that is the most comfortable for you and push it onto the earbud. The earbud tip has an interior sleeve that slides onto the earbud. Repeat steps 2 and 3 for the second earbud.

charging earbuds

- Place both earbuds back into the case
- o Charging is complete when lights turn off
- Full charge requires approximately 1 hour

charging case

- Plug USB-C end of charger into the back of the case
- Plug USB end into a power supply of at least DC 5V1A warning: please use UL compliant power supply
- Full charge requires approximately 2 hours and will provide 24 hours of earbud use
- · Charging is complete when all 4 LEDs are solid white

IPX5 water resistance

 The earbuds are resistant to sweat which means they're perfect for workouts note: the charging case does not have the same rating and should not be used in the same conditions

sinale earbud use

 After pairing to your device remove only the right earbud from the case to enter single earbud use

troubleshooting

- If the earbuds are not working correctly place them into the case with the lid open and reset them
- If the earbuds won't turn on, recharge the battery and try again
- If the earbuds won't charge, make sure the power supply works, is 5V>1A, not damaged and that the case is charged
- If the earbuds still won't charge, make sure the charge pins are clear of debris as this
 may cause a connection issue; if they are use a soft dry cloth to clean them
- If the earbuds make no sound or do not show as an available device, make sure they
 are not paired, if so unpair the device and repair to the desired device

need some help?
