- 1 x User Manual

■ LED and Button Rules

① Power Button

Press the button to turn the smart plug ON or OFF.

To factory reset the smart plug, press and hold the button for 5 seconds until the LED flashes between amber and green.

② Status LED

Solid amber: Initializing/ Firmware upgrading

Rapidly flashing green:

Wi-Fi connecting

Slowly alternating between amber and green: Ready to pair

Solid green: Connected to home

Wi-Fi/ Successfully paired

Solid red: No internet connection

OFF: Your receptacle is not powered on/ The smart plug is not turned on.

■ **Installation Guide**

1. Connect your smartphone or tablet to a 2.4 GHz Wi-Fi network.
2. Make sure your smart device is covered by strong Wi-Fi signal.
3. The smart device supports iOS 13/ iPadOS 13 and later. In order to have better user experience, it is

recommended that you upgrade your iOS or iPadOS to the latest version before pairing with the smart device.

4. Download the Meross app. (P5)
5. Launch the Meross app and log in to your account, or if you are a new user, tap **Sign up** to create a new account.
6. Tap the “+” icon to select the type of smart device you want to add, then you can just follow the setup wizard to finish configuration. (P5)
7. Relocation of the smart device does not require additional operations provided that it is on the same network with strong Wi-Fi signal.

NOTE:

1. As long as you finish configuration, you'll be able to manage the device in Apple Home app.

2. Find more at <https://www.meross.com/support/>.

■ **Link to Google Assistant or Amazon Alexa**

Set up the device in the Meross app first, then link it to voice assistants.

Link to Amazon Alexa

Go to **Account-> Amazon Alexa** and allow Meross to link with Alexa.

Link to Google Assistant

Go to **Account-> Google Assistant** and follow the step-by-step instructions to complete the linking process.

■ **FAQ**

At Meross, we strive to assure your satisfaction. Attached below is a

non-exhaustive list of questions that users are mostly concerned about.

1. What devices can I control with Meross smart plug?

You can control lights, fans, humidifiers, portable heaters, and other small appliances that are in conformity with the specifications of the smart plug (up to 15A output).

2. What should I do when the LED turns solid red?

You can troubleshoot the following:

- Check if your home Wi-Fi is working properly.
- Make sure that you have disabled access control in your router and that

the smart plug is not blocked by the router's firmware.

- Factory reset your Meross smart plug and try to add it again.

3. Why is my Meross smart device not responding in the Apple Home app?

This is an existing issue with Apple Home app. You need to exit and reboot your Home app to fix this problem.

Customers acknowledge understanding of these articles clearly by reading this manual.

■ FCC Compliance Information Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in

accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Canadian Compliance Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
