## No Smart Speaker

1. Download the SYLVANIA Smart Home app from the Google Play store or Apple app store.

2. Turn on the power to the SYLVANIA SMART+ device.
3. Open the SYLVANIA Smart Home app and tap 'Press Here' for No Smart Speaker.
4. Log into an existing account or sign up for a new account.
5. Follow the app on-screen instructions to add a device.

### \* Resetting your light to pairing mode:

Power on and off the bulb 5 times.

Once reset, a color bulb will cycle through different colors and stop at white. For non-color bulb, it will only cycle through white colors.

### Notes:

- If your device shows as 'unresponsive' in the Alexa app, power cycle (off & on) your Echo device may help bring the device back online.

- If you are logged into the Sylvania Smart Home app, you must log out to access the firmware update feature for smart home speaker.

- For the best user experience, we recommend you use the SYLVANIA SMART+ Bluetooth Mesh device with a smart home speaker and its respective app. The SYLVANIA Smart Home app is only for firmware update or if you do not have a smart speaker.
