DISCLAIMER: The exact components of your system, images, and quantities may vary depending on your model number. While these may vary, this QSG addresses the setup of your NVR and cameras. While we make every effort to provide accurate information, inaccuracies or errors may occur. We reserve the right to make changes, corrections, and/or improvements to the information and to the products, at any time without notice.

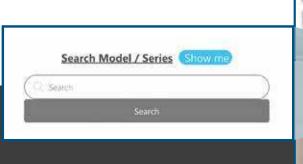

# Not Connecting to the Internet?

Night Owl strongly recommends connecting the NVR to the internet during the initial setup. This will ensure the NVR receives the latest firmware update and will register the device to your account. After setup is complete, you may disconnect the NVR from the internet.

- You must manually update the device's firmware to the latest version to receive Technical Phone Support. The latest firmware version is available on the device's support page on the Night Owl Support Site.
- The NVR must be registered to receive Technical Phone Support.
- You cannot view your system remotely.
- Resetting your password is a much longer process to ensure security.

#### **Need More Help?**

For system manuals, troubleshooting guides, FAQs, video tutorials and more:

- 1 Please visit **Support.NightOwlSP.com** or scan the QR Code.
- 2 Enter the Series listed on the Product Support Sticker (on top of the NVR) into the Search bar.
- 3 Access the support material needed.

#### **A** WARNING

- **INGESTION HAZARD:** This product contains a button cell or coin battery.
- DEATH or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause internal Chemical Burns in as little as 2 hours.
- Keep new and used batteries OUT OF REACH OF CHILDREN.
  Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.

# Step 2: Download the Night Owl App

If you're a First Time User, download the Night Owl app from the App Store or Google Play Store onto your Smart Device then create and verify your account. If you already have an account skip to Step 3. **TE:** Setup is the same

surge protector is switched ON

## **Step 3: System Configuration**

Now that your system's hardware is connected and you have the app setup on your Smart Device, it is time to configure your system. Based on whether you chose Option 1: Easy Bluetooth® Wireless Setup or Option 2: Manual Setup (TV / Monitor), follow the steps below.

#### Option 1: Easy Bluetooth® Wireless Setup

NOTE: If you have a TV / Monitor connected, you will see setup information appear on the screen as you complete the Bluetooth® setup on your phone or tablet. A TV / Monitor is not required for this setup.

- Log in to the app. If your device's Bluetooth® is not enabled, you will be asked to allow access.
- The app will now use Bluetooth® to find the NVR. Tap "Continue" to add the NVR to your Night Owl account. You must be near your NVR for the app to discover your device.

**IOTE:** NVR must be connected to the internet.

Take a moment to name your recorder.

not be able to configure your device using Option 1

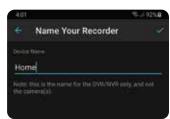

The app will now pair to the NVR. Once finished, complete the remainder of the Startup Wizard right from the app and begin viewing your cameras.

If you are not connected to the internet you will

or Smartphone and Tablet.

Device Has Been Added Successfully

#### **Option 2: Manual Setup (TV / Monitor)**

NOTE: Connecting your system and using the Night Owl App is preferred and offers added security benefits and convenience to your mobile lifestyle.

We strongly recommend connecting your NVR to the Internet to search for the latest firmware. Keeping your firmware updated is vital for the overall health of your system. If you are NOT connecting your NVR to the Internet, please manually upgrade the firmware and register your device.

- If you have not already done so, connect your NVR to a TV / Monitor using the provided HDMI cable. Follow the steps in Connecting Your System.
- You will now begin the Startup Wizard. When you get to the following screen, click "Manual Setup (not recommended)."

Proceed through the rest of the Startup Wizard to finish setup. Once complete, click on "Go to Live View" to begin viewing your cameras.
