

Ring Sizing Guide[®]

Instructions

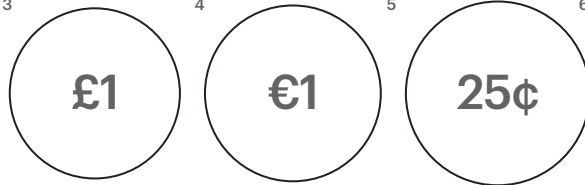

Print this page out at 100%. Do not scale the print.

Either measure this printed ruler against a real ruler to check the scale has printed correctly

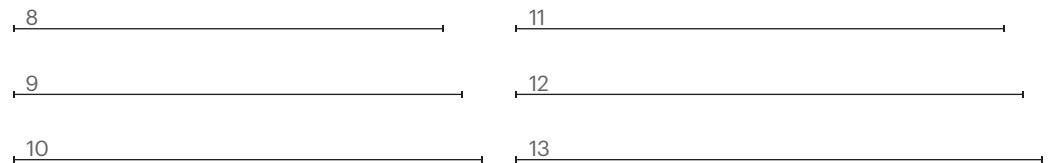

Or place a coin on the corresponding circle and check

Then choose of the following methods to determine your ring size

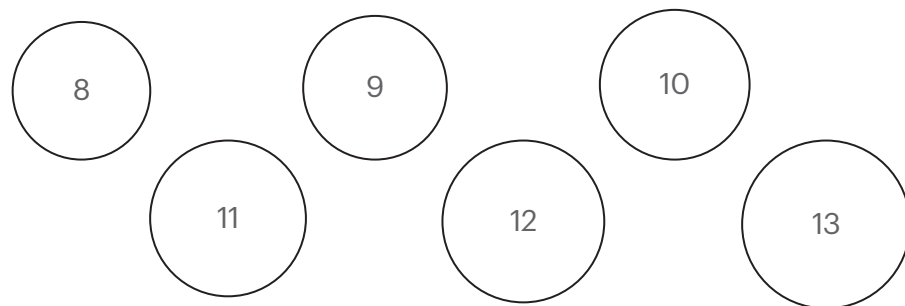

THE STRING METHOD

Use a piece of non-stretchy thread and wrap it snugly around the base of your finger. Use a pen to mark the point where the thread overlaps. Compare the length of the string to the size chart below to determine your ring size.

THE RING METHOD

Place a ring that fits you or the person you are buying for on this sheet. Find the circle that fits just within the inside of your existing ring to determine your size.

THE cut-out THING METHOD

Cut out this little paper tool below and slide Point B through slot A. Fit the sizer snugly around the base of your finger ensuring you can take the sizer off over your knuckle.
