Shower Door Measurement Guide

Prior to installation, please determine the following measurements of your enclosure based on the diagram provided:

- **A: Door Width**
 - Measurement of the width at the top and the bottom of the door opening
- **B: Vertical Opening**
 - Measurement of the height of the opening
- **C: Depth**
 - Measurement of the depth of the sill/threshold

Opening Requirements for Installation:

- Door Width : 34 in.
- Total Product Height: 72 in
- Minimum Depth Required for Sill/Threshold: 1/2 in.

Measurement Recording Chart

Measurements	Measurements Values	Recommended
Door Width: (A)		34 in
Total Product Height: (B)		Minimum 72 in
Depth: (C)		Minimum 1/2 in.
