Mixed Berry Yogurt

COURSE:
ENTRÉE

PREP TIME:
5 MINUTES

COOK TIME:
8-12 HOURS

YIELDS:
½ GALLON

INGREDIENTS:

- ½ gallon milk (whole, 2%, 1% or fat free)
- 2 tbsp yogurt starter
- 1 cup mixed berries

NOTES:

When making yogurt in your Express Crock, first make sure your pot is cold or cool. You will need a thermometer for the cooking process.

YOGURT function does not operate under pressure.

More time = more tangy,
less time = less tangy.

DIRECTIONS:

Pour milk into the Cooking Pot. Press **YOGURT**, set temperature to HIGH. Press **START/STOP**. Whisk frequently. Using a thermometer, check the temperature of the milk. When milk has reached 180°F, press **START/STOP**. Use oven mitts to remove Cooking Pot and place in kitchen sink full of cold water, not allowing water into the Cooking Pot. Cool milk down to 95-105°F, whisking often. Do not add the yogurt starter to the hot milk, as it will kill the bacterial cultures.

Scoop some milk into a separate bowl and stir in yogurt starter. Add this mix to the Cooking Pot and stir until the mixture reaches a uniform consistency. Place Cooking Pot back into the Heating Base. Secure the lid. Press **YOGURT**, set temperature to LOW, and set time to 8-12 hours. Make sure Steam Release Valve is in the “Release” (open) position. Press **START/STOP**. After 8 hours, taste test periodically until desired taste is achieved.

Once the yogurt has reached the desired taste, press **START/STOP**, remove the Cooking Pot, cover with aluminum foil, and place it on a trivet in the fridge to stop the incubating process and allow to sit there for at least 8 hours. The yogurt should thicken slightly as it sits.

Plain yogurt is done. Add mixed berries and serve.

Lemon Cheesecake

COURSE:
DESSERT

PREP TIME:
15 MINUTES

COOK TIME:
30 MINUTES

YIELDS:
8-10 SERVINGS

INGREDIENTS:

4 tbsp butter, melted
10 oz shortbread biscuits,
crushed to crumbs
22 oz cream cheese
½ cup white sugar
½ cup sour cream
2 lemons, zest and juice
3 large eggs

TOPPING:

5 tbsp lemon curd
Lemon thyme leaves
Dusting of powdered sugar

TIP:

For this recipe, you will need an 8-inch springform baking pan, the base lined with baking parchment.

DIRECTIONS:

Prepare a strip of foil roughly 18-inches in length, fold this twice lengthways. This will make a sling that will enable you to remove the baking pan from the Cooking Pot once cooked. In a bowl, combine the melted butter and biscuit crumbs, mix well together. Press crumbs evenly and firmly into the base of the baking pan, refrigerate. Place the soft cheese and sugar into a bowl and whisk together until smooth. Add the sour cream, lemon zest and juice, mixing well. Gently mix the eggs into the filling until just combined, do not overmix.

Pour the filling onto the cheesecake base. Add approx. 2 cups of water to the Cooking Pot. Fit the steaming rack into the Cooking Pot and lay the foil strip across the steaming rack and up the sides of the Cooking Pot. Ensure the foil strip is clear of the lid. Carefully place the cheesecake onto the Steaming Rack. Secure the Lid. Press **DESSERT**, set pressure to HIGH, and adjust time to 30 minutes. Make sure the Steam Release Valve is in the “Seal” (closed) position. Press **START/STOP**.

Once cooking is complete and the pressure is released, remove the baked cheesecake carefully, using the foil sling to lift out the pan. Use gloves or oven mitts when lifting foil sling out of the pan to avoid touching the hot Cooking Pot. Allow to cool. Once completely cool, remove from the pan, peel the parchment from the base and refrigerate for 2-3 hours.

Before serving, spoon the lemon curd into a small bowl and mix well to soften. Swirl over the cheesecake, add a scattering of lemon thyme and a dust of powdered sugar.

Chocolate Chip & Hazelnut Banana Bread

COURSE:
DESSERT

PREP TIME:
15 MINUTES

COOK TIME:
1 HOUR

YIELDS:
12 SERVINGS

INGREDIENTS:

1½ cups all-purpose flour
1½ tsp baking powder
1 tsp baking soda
½ tsp salt
1 egg
¾ cup granulated sugar
½ cup plain 2% yogurt
½ cup vegetable oil
1 tsp vanilla extract
2 ripe bananas, mashed
¾ cup milk or dark
chocolate chips
¾ cup chopped hazelnuts
1 ½ cups water

DIRECTIONS:

Grease an 8-inch diameter round bundt pan and line the bottom and sides with parchment paper. Prepare a long strip of foil, roughly 24 inches long and fold into 3 lengthwise. This will provide a sling to lift out your cake pan. In a bowl, whisk together flour, baking powder, baking soda and salt. In separate bowl, whisk together egg, sugar, yogurt, oil and vanilla until blended; whisk in bananas until combined. Stir into flour mixture. Fold in ½ cup chocolate chips and ½ cup hazelnuts. Scrape into prepared cake pan and smooth top. Sprinkle with remaining chocolate and hazelnuts.

Add 1 ½ cups of water into Cooking Pot. Place Steaming Rack over water. Fit the foil sling over the base of the rack, allowing the strips to fit the sides of the Cooking Pot and up to the rim. Place bundt pan on Steaming Rack, ensuring the foil strips are easily accessible to lift out of the Cooking Pot. Lightly cover the cake pan with a piece of paper towel and then a piece of foil. Secure the lid. Press **MANUAL PRESSURE**, set pressure to HIGH, and adjust time to 1 hour. Make sure the Steam Release Valve is in the “Seal” (closed) position. Press **START/STOP**.

Once cooking has completed and the pressure is released, remove the cake pan using the foil sling and place onto a cooling rack. Remove the pan and parchment paper and allow to fully cool before slicing.
