Product parts list

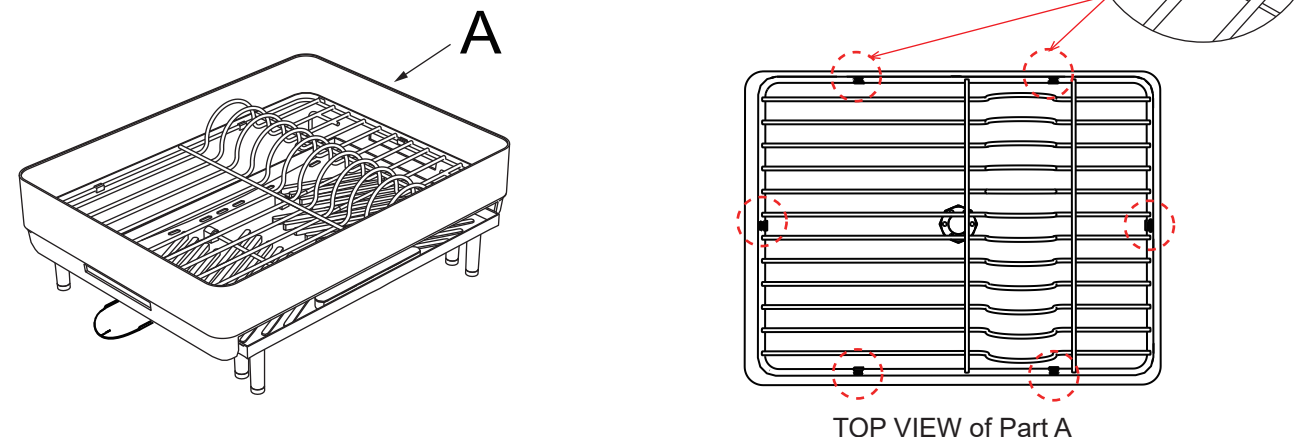

Product Parts Layout Diagram

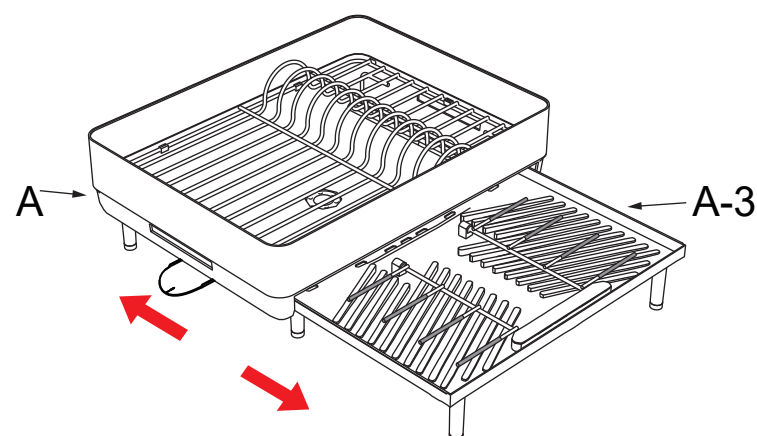

1 Secure the Metal Rack (Part A-2)

Snap all six points into the plastic clips on the Drain Board (Part A-1). Refer to the diagram for detailed connection points.

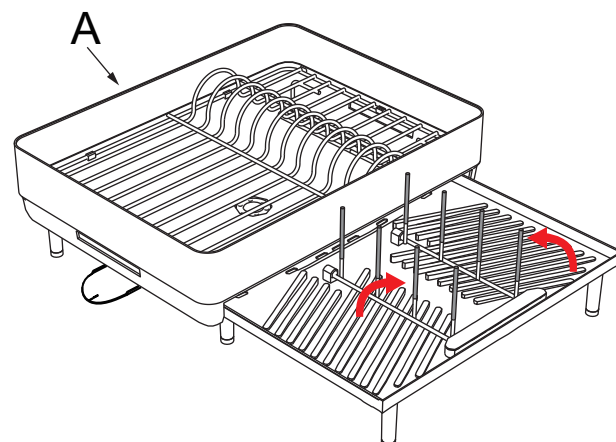

2 Pull Out the Extendable Drainboard (Part A-3)

Gently pull out the Extendable Drainboard and ensure it sits evenly on the surface. **If it doesn't sit flat, go back to Step 1 to check the Metal Rack (Part A-2) is properly secured.**

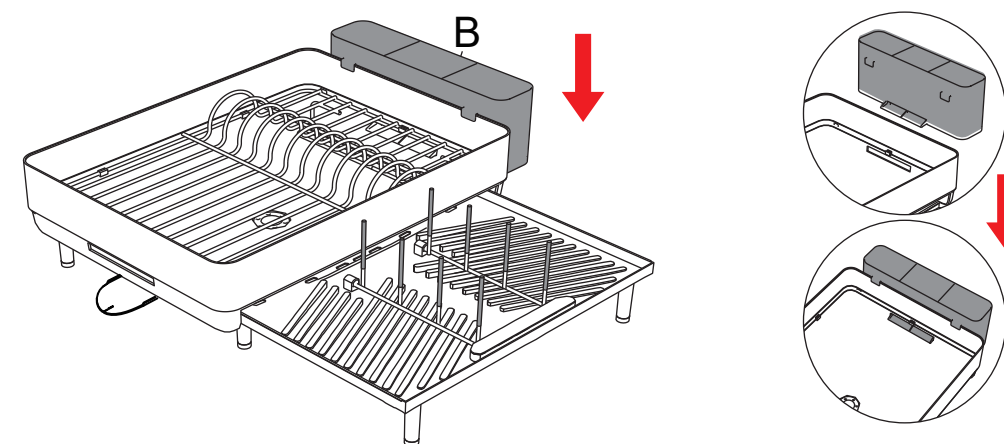

3 Position the Multifunction Holder

Rotate the Multifunction Holder 90 degrees into place. Apply gentle pressure to avoid damage.

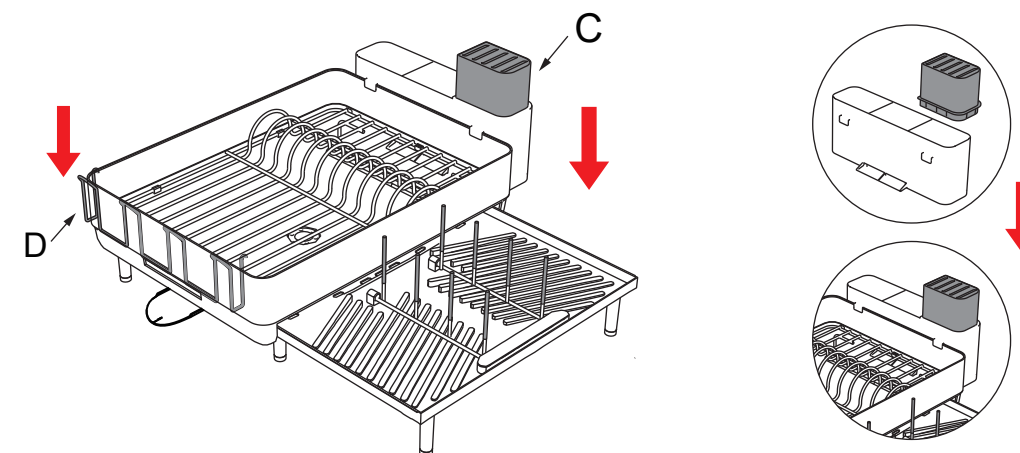

4 Attach the Utensil Holder (Part B)

Clip the Utensil Holder to the Drain Board (Part A). **The Drain Board offers three installation positions for the Utensil Holder.** Choose the position that best suits your needs.

5 Install the Knife Block and Cup Rack (Parts C and D)

Snap the Knife Block (Part C) onto the Utensil Holder (Part B). Then attach the Cup Rack (Part D) firmly to the Drain Board (Part A) as shown.

Installation Complete!

To keep your product in top condition, please follow the guidelines below:

1. Always place it on a stable, flat surface.
2. Clean with a soft, damp cloth. Avoid harsh chemicals, wire brushes, abrasive sponges, or sharp tools.
3. The weight limit per shelf is 20 kg (44 lbs). Actual capacity may be higher, but avoid excessive force to prevent damage or injury.
