아이콘	상태	설명
	touch	Lights and RF wireless transmitter ON/OFF
	touch	RF wireless transmission power ON/OFF
	touch	Light ON/OFF only

3. SPECIFICATIONS

ITEM	Description
Frequency	920MHz Center Frequency
RF Power output	1 Watt
Operating Temp.	-20°C to 50°C
Environment	Indoor use only
Mounting	Install it in your desired location.
Power	ADAPTER DC 12V
Color	T.B.D
Dimensions	97.2mm x 114mm x 217.7mm

Federal Communication Commission Interference Statement

This device complies with Part 18 of the FCC Rules.

This equipment has been tested and found to comply with the limits for a Part 18 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FOR PORTABLE DEVICE USAGE

Radiation Exposure Statement:

The product comply with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.
