

HomeWorks QS Wired Maestro Designer Local Controls

HomeWorks QS Wired Maestro local controls function much like standard dimmers and switches, but can be controlled as part of a lighting control system. Local lighting controls are useful in locations where single circuits of lighting need to be dimmed or switched. Local fan speed controls are useful in locations where control of a single ceiling paddle fan is needed.

HomeWorks QS Wired Maestro dimmers incorporate advanced features such as fade on/fade off, delayed long fade to off, and rapid full on.

HomeWorks QS Wired Maestro local controls include a Front Accessible Service Switch (FASS) for safe lamp replacement. HomeWorks QS Wired Maestro local controls install in single-pole or multi-location applications. Remote dimmers/switches are available for multi-location control.

Use Lutron Designer (Claro or Satin Colors) wallplates or designer-style wallplates from other manufacturers. Wallplates are sold separately. Lutron Claro and Satin Colors wallplates snap on with no visible means of attachment. HomeWorks QS Wired Maestro local controls support color change kits.

--------------	--

Fan Speed Control

Single ceiling paddle fan only (120 V~)

HWD-2ANF-XX*	2 A Neutral Fan Speed Control
--------------	----------------------------------

Remotes (for multi-location installations)

HQD-RD-XX*	Remote Dimmer (120 V~)
HQD-RS-XX*	Remote Switch (120 V~)

Color Change Kits

RK-D-XX*	Dimmers (-6D, -6ND, -10D, -10ND)
RK-S-XX*	Switches (-8ANS)
RK-AD-XX*	Remote Dimmer (-RD)
RK-AS-XX*	Remote Switch (-RS)
RK-F-XX*	Fan Speed Control (-2ANF)

Note: No color change kit is available for -5NE

**"XX" in the model number represents color/finish code.
See **Colors and Finishes** at end of document.

HomeWorks QS Wired Maestro Designer Local Controls

Specifications

Model Numbers	Dimmer: HWD-6D-XX, HWD-6ND-XX, HWD-10D-XX, HWD-10ND-XX, HWD-5NE-XX Switch: HWD-8ANS-XX Fan Speed Control: HWD-2ANF-XX Remote: HQD-RD-XX, HQD-RS-XX Color Change Kits: RK-D-XX, RK-S-XX, RK-AD-XX, RK-AS-XX, RK-F-XX
Power	120 V~ 50/60 Hz
Typical Power Consumption	Dimmer/Switch/Fan Speed Control: 0.75 W Test conditions: load is off and nightlight mode is enabled. Remote Dimmer/Switch: 0 W Test conditions: load is off.
Regulatory Approvals	UL, CSA (all except -5NE), and NOM
Environment	Ambient operating temperature: 32 °F to 104 °F (0 °C to 40 °C), 0% to 90% humidity, non-condensing. Indoor use only.
Communications	Wired Local Controls are wired to a HomeWorks dimmer Hub (HWI-H48). One pair twisted shielded 22 AWG to 18 AWG (0.5 mm ² to 1.0 mm ²) IEC PELV/ NEC® Class 2 wiring.
Capacity	Each HomeWorks Dimmer Hub (HWI-H48) is capable of directly controlling up to 48 Wired Maestro Local Controls. Up to 8 Wired Local Controls may be wired to a single bus on the HWI-H48. Refer to IEC PELV/NEC® Class 2.
ESD Protection	Tested to withstand electrostatic discharge without damage or memory loss, in accordance with IEC 61000-4-2.
Surge Protection	Tested to withstand surge voltages without damage or loss of operation, in accordance with IEEE C62.41-1991 Recommended Practice on Surge Voltages in Low-Voltage AC Power Circuits.
Power Failure	Power failure memory: should power be interrupted, the control will return to its previous state when power is restored.
Mounting	Requires a U.S. wallbox. 3 1/2 in (89 mm) deep recommended, 2 1/4 in (57 mm) deep minimum.
Wiring	Uses conventional 3-way and 4-way wiring.
Warranty	www.lutron.com/TechnicalDocumentLibrary/warranty.pdf

HomeWorks QS Wired Maestro Designer Local Controls

Design Features

Dimmer

- On a single-tap, lights fade ON or OFF.
- On a double-tap, lights go to full ON.
- When ON, press and hold the tapswitch to engage the delayed long fade to OFF.
- Light levels can be fine-tuned by pressing and holding the dimming rocker until the desired light level is reached.
- Two-wire dimmers available.
- Electronic low voltage dimmer available.

Switch

- On a single-tap, lights or motors turn ON or OFF.
- Requires a neutral connection.

Fan Speed Control

- On a single-tap, fan turns ON or OFF.
- Fan speeds can be selected by pressing and holding the fan speed control rocker until the desired fan speed is reached.
- Controls one paddle type ceiling fan (Permanent split-capacitor motor) up to 2 A. Not for use with shaded-pole type motors (i.e. bath exhaust fans).
- Provides four (4) quiet speeds plus OFF.
- Not for use with fans that have integrated fan speed and/or light control modules.
- Requires a neutral connection.

Dimensions

All dimensions are shown as $\frac{\text{in}}{(\text{mm})}$

Terminal / Wire Color

The HWD-5NE dimmer does not have terminals - it has wires. Refer to the chart to the right for wire color equivalents when viewing the wiring diagrams for the -5NE.

Terminal Color	-5NE Wire Color
Black	Black
Brass	Yellow
Silver	White
Blue	Blue

HomeWorks QS Wired Maestro Designer Local Controls

Mounting and Parts Identification

Ganging and Derating

When combining controls in the same wallbox, derating is required. See **Load Type and Capacity**. No derating is required for remote dimmers/switches/fan speed controls. -8ANS has fins that need to be removed for multigang installations.

-8ANS only:

	Motor	0.083 A	1/4 HP 5.8 A	5.8 A	5 A	
HWD-2ANF ⁶	Ceiling Fan	0.083 A	2 A	2 A	2 A	YES

¹ Dimmer Load Type: -6D, -6ND, -10D, and -10ND are designed for use with permanently installed incandescent, magnetic low-voltage, or tungsten halogen only. Do not install dimmers to control receptacles or motor-operated appliances.

² Low-Voltage Applications: Use -6D, -6ND, -10D and -10ND with magnetic (core and coil) low-voltage transformers only. Not for use with electronic (solid-state) low-voltage transformers. To control electronic low-voltage transformers, use the HWD-5NE control.

Operation of a low-voltage circuit with lamps inoperative or removed may result in transformer overheating and premature failure. Lutron strongly recommends the following:

- Do not operate low-voltage circuits without operative lamps in place.
- Replace burned-out lamps as soon as possible.
- Use transformers that incorporate thermal protection or fused transformer primary windings to prevent transformer failure due to overcurrent.

³ Can control the following power boosters/load interfaces: Hi-Power Boosters (HP-2, HP-4, HP-6), 0-10 Volt Interface (GRX-TVI), Minimum Load Interface (LUT-LBX), Phase Adaptive Power Module (PHPM-PA), Switched Power Module (PHPM-SW), and 3-Wire Fluorescent Power Module (PHPM-3F).

⁴ For specific LED lamp/fixture compatibility, refer to the LED product selection tool at www.lutron.com/ledtool. For general information regarding minimum and maximum loading, refer to Application Note 487 – **Minimum and Maximum Loads for LED and CFL Lamps/Fixtures**.

⁵ Switch Load Type: -8ANS is designed for use with all permanently installed lighting loads and with motor loads up to 1/4 HP (5.8 A)

⁶ Ceiling Fan Application (HWD-2ANF):

- Use to control one paddle-type ceiling fan (permanent split-capacitor).
- Use the ceiling fan's pull chain to set its speed to the highest setting*.
- Do not use to control fans that use shaded-pole motors (i.e. bath exhaust fans).
- Do not use to control fans that have integrated fan speed controls (i.e. fans that have a remote control), unless the integrated control is removed from the ceiling fan.
- Do not connect to any other motor-operated appliance or to any lighting load type.
- Do not use to control a fan lighting load (i.e. lighting kit).

*See http://res.lutron.com/Portals/3/Product/AppNotes/048-217a_prelim.pdf for more information.

Fan Speed Control

IMPORTANT NOTICE:

FASS - Front Accessible Service Switch

To replace bulb, remove power by pulling the FASS out fully on all controlling devices. After replacing bulb(s), push the FASS back in fully to restore power to the control(s).

HomeWorks QS Wired Maestro Designer Local Controls

Wiring

Dimmer communications wiring may be in a daisy chain, star, or t-tap configuration. Each home run on a bus may be up to 500 ft (152 m) and may contain up to 8 devices. The total length of wire on each bus (all home runs) may be up to 1000 ft (305 m). Up to 48 HomeWorks Wired Maestro Local Controls may be wired to the HomeWorks Dimmer Hub (HWI-H48). Up to four HWI-H48 Dimmer Hubs may be placed on each processor link configured as an H48 link in the HomeWorks software.

¹ When using controls in single location installations, tighten the blue terminal. **DO NOT** connect the blue terminal to any other wiring or to ground.

² Up to 9 HomeWorks Maestro Remote Dimmers/Switches may be connected to the HomeWorks Wired Maestro Dimmer/Switch/Fan Speed Controls. Total blue terminal wire length may be up to 250 ft (76 m).

³ Neutral wire Dimmers/Switches/Fan Speed Controls must be connected on the Load side of a multi-location installation.
