Miele Expands Induction Portfolio with Launch of New 36-Inch Range in Canada

Toronto – August 5, 2025—Miele, the world’s largest manufacturer of premium domestic appliances, is expanding its induction range portfolio by introducing a new 36-inch model. This will offer Canadian consumers an energy-efficient, high-performance solution for modern kitchen design.

As more households embrace the benefits of induction cooking, Miele’s new 36” Induction Ranges bring increased versatility, power, and capacity to the kitchen. Equipped with two PowerFlex zones and one large round induction zone, the expansive cooktop offers ample flexible space for various cookware, delivering precision results with every meal.

“In line with our brand promise, *Immer Besser*, we continue to innovate and elevate the cooking experience for our customers,” said Nelson Fresco, President and CEO of Miele Canada. “Induction cooking has rapidly gained popularity, and we are proud to further our leadership in this category by introducing a larger, more versatile size option to meet evolving kitchen designs and consumer needs.”

The new Miele HR 1432-3 I with DirectSelect combines exceptional design with sustainably efficient technology. Its clean aesthetic integrates seamlessly into any Miele kitchen while delivering the professional-grade performance the brand is known for. Key features include:

- **Two PowerFlex and One Round Induction Cooking Zones:** Advanced cooktop technology provides flexible cooking space and adaptability for different pan sizes.
- **TwinPower Boosters:** Rapid heat-up times and even heat distribution for faster cooking.
- **Pyrolytic Self-Cleaning:** Effortless oven cleaning as food residue is incinerated to ash, so there is no need to remove accessories, which are all pyro-cleaning compatible.
- **SoftOpen and SoftClose:** Smooth, quiet oven door operation with fully telescopic runners to keep cookware secure and stable.

Also launching is the Miele HR 1632-3 I with M Touch, which includes all the features of the HR 1432-3 I model plus advanced controls and enhanced functionality, including:

- **Moisture Plus:** Injected bursts of steam optimize baking and roasting for perfect results.
- **Wireless Precision Probe:** Built-in thermometer with four measuring points ensures accurate, restaurant-quality cooking.
- **Proof:** Ideal for dough rising and bread preparation.
- **Crisp Function:** Controlled moisture reduction creates the perfect dry environment for air frying.
- **Lift-Up Control Panel:** Turn dial with display for intuitive operation and easy access.

Availability

The new 36” Induction Ranges will be available in Canada starting August 1, 2025, through Miele Chartered Agents, Miele Experience Centres, and online at miele.ca.

Miele Company Profile

Founded in Germany in 1899 with a single promise of *Immer Besser*, a phrase meaning *Forever Better*, Miele is the world's leading manufacturer of premium domestic appliances. Throughout the world, the family-run enterprise, now in its fourth generation, employs a workforce of around 22,300, of which approx. 11,200 employees work in Germany. The company has its headquarters in Gütersloh in Westphalia. As a premium appliance brand represented on all continents, Miele is steadfastly committed to the highest quality, performance, and environmental standards. Miele's range of exceptional consumer appliances includes: vacuum cleaners, laundry systems, rotary irons, dishwashers, ranges, built-in convection/speed/steam/combi-steam ovens, cooktops, ventilation hoods, refrigeration, wine storage and coffee systems.

Miele Canada was established in 1989 with headquarters located in Vaughan Ontario. To learn more, visit www.miele.ca or follow us on [Facebook](#), [X](#), [Instagram](#) and [YouTube](#).

Photo 1:

5-Zone Induction Cooktop: Featuring two PowerFlex zones and one round zone, the advanced cooktop offers maximum flexibility and adaptable space for various pan sizes, ensuring precision cooking and exceptional performance.

Photo 2:
SoftOpen and SoftClose: Thoughtfully engineered for everyday ease, the range oven doors open and close smoothly and quietly, preventing slamming and ensuring safer, more seamless operation.

Photo 3:
Cooling System and Touch-Cool Fronts: Standard across all Miele ranges, the oven is cooled on all sides to keep handles and surrounding cabinetry pleasantly cool. Multi-layer door panels provide effective insulation, enhancing safety and protection against burns.

Photo 4:
Moisture Plus: Available on the HR 1632-3 I, this feature combines convection or surround heat with bursts of steam for tender, juicy meats and bakery-fresh bread, delivering perfect roasting and baking results every time.

Photo 5:
TwinPower Convection Fans: Standard on both the 30" and 36" ranges, dual fans circulate hot air powerfully and evenly for rapid preheating and consistent cooking results throughout the oven.
