How to use your Madoka Heating simplified remote controller

By pressing the **O** button from the home screen, you will cycle through the operation screens.

Room temperature: Showing the current room temperature and allows adjustment to desired room temperature

Hot water temperature: See the current hot water tank temperature and allows adjustment to desired temperature (Dependent on unit setup)

Hot water boost: Enable or disable hot water boost

Using the **+** or **-** button allows you adjust the operation screen temperature.

Room temperature - actual room temperature showing, with manual override facility.

Hot water - Current storage temperature of hot water cylinder, with manual facility.

Hot water boost - Enable or disable hot water boost, by selecting the program using **+** or **-** and confirming with **O**.
