

EXCLUSIVE McDONALD'S MACHINE LAUNCH

WMF 5000 S+

Following successful RSG testing a new WMF coffee machine has been approved for release

WMF 5000 S+ Features

- Single grinder and hopper to achieve coffee freshness.
- Narrower footprint compared to the WMF 9000 S+
- WMF Auto clean system saves time and effort, with minimum operational engagement reducing complexity and operational errors
- Spout adjusts automatically to optimal height for each beverage, maintaining perfect temperature, producing a goldstandard quality beverage.
- Dynamic coffee assist, maintaining quality
- 10-inch touchscreen
- UCC BW3 existing sockets can be used, avoids additional electrical installation costs. Also available as 3 Phase to replace WMF machines
- Gold side lights with updated cup graphics
- Telemetry enabled for the future
- Supports future beverage strategy
