

GAMING FOOTBALL SOCCERBALL

C-206-GF

0424

FCC ID: 2AVAM-S2

IC: 29250-S2

HVIN: Sensor S2

SPECIFICATIONS:

Size	Ø206 mm
Circumference	235-260 mm
Weight	360-390g
Material	PU, hybrid ball
100% battery	40h active use
Charging	min 20W Wireless charger

USAGE AND WEATHER:

The football is made to be used as a regular high quality football/soccer ball. Play whenever, and where ever. Set the ball to dry after use in rain/wet grass.

CHARGING:

The ball can be charged with any Qi standard wireless charger with minimum 20W effect. We recommend however to use the playfinity wireless charger (PF-CHG-1). See charger manual or playfinity.com for more information on charging.

INCLUDING:

Playfinity gaming football (C-206-GF) x 1
User manual x 1

To view important safety information, EU and FCC Declaration of Conformity, see the playfinity FC app or check out playfinity.com/pages/ccpa-cpra-compliance.

0424

MADE IN PAKISTAN

**Adapter for wireless charger - 9V --- 2.22A:**

Note that the adapter used for the wireless charger must provide 9V --- 2.22 A for best performance. This is a 20W adapter or more. Other combinations with 9V may also work well.

**When sold with Playfinity Gaming Football:**

NOTE: The below is the manual for wireless charger when the Playfinity Wireless Charger is sold with the gaming football.

WIRELESSCHARGER

PF-CHG-1

0424

SPECIFICATIONS:

Input	DSV 2A / DC9V 1.67A
Output	DSV 1A / DC9V 1.2A
Quick Charge	QC2.0 / QC3.0
Conversion	≥ 72%
Material	ABS and TPU

**KIND REMINDER:**

In the process of charging, do not put metal materials like key rings, metallic phone cases, etc. directly onto the wireless charger.

To achieve the best performance of this wireless charger, use a minimum 20W power adapter with USB C socket (QC2.0 / QC3.0 standard).

INCLUDING:

Playfinity wireless charger x 1
USB C to USB C Power cable (1m) x 1
User manual x 1

ADDRESSES:

Playfinity AS
Drammensveien 288,
0283 Oslo, NORWAY
www.playfinity.com

North America: Playfinity Inc.
Nordic Innovation House
470 RAMONA STREET
PALO ALTO, CA 94301 USA

**HOW TO USE THE WIRELESS CHARGER:**

1. Connect the cable into the port of the charger
2. Plug the USB connector into the USB power adapter (20W+)
3. Connect the adapter to the power outlet
4. Place the wireless charge zone area (the button area) on a gaming ball in the center of the charge plate
5. When you have placed the ball correctly on the charger, the indicator light will turn blue.

* NOTE: Certain balls may require precise center placement for optimal charging. In such cases, you may need to make slight adjustments by turning the ball in different directions to ensure that the center of the charging zone aligns perfectly with the center of the charger.

LED INDICATORS INFORMATION:**LED TURNED OFF**

Indicates the wireless charger is standby or fully charged.
NOTE: Sometimes the blue charging light will not turn off when fully charged.

PULSING BLUE LIGHT

Indicates the wireless charger is working, and charging product

BLUE LIGHT FLASHING

Indicates charging abnormality /FOD (Foreign Object Detection, like Non-Qi device without receiver, or found a metal on wireless charger pad).

GREEN LIGHT

Indicates the wireless charger is standby
