

Product Number	STR-DL-0071
Material	Metal+seashell+fabric
Input Voltage	AC 110-120V
Switch Type	Touch control switch
Bulb Base	E26 (Max.60W)
Lamp Height	25.5 inches
Cable Length	60 inches
Dimmable	Yes
Bulb Included	Yes
Style	Modern/coastal/gorgeous

A diagram of a lamp assembly. The main assembly consists of a lampshade (I) attached to a frame (H). Below the frame is a flexible neck (F) leading to a bulb (G). The bulb is connected to a base (E) which is attached to a glass globe (D). The globe is connected to a base (H) which is connected to a power cord (J). To the right, there is a detailed view of a component (B) which is a curved, segmented structure. It has a central opening (A) and is connected to a rectangular block (C) which has a grid-like pattern. Below this block is a cylindrical component (D) with a central opening. The entire assembly is connected to a power cord (J) which has a plug (K).

- A → B → C → D → E → F → G → H → I → J

1. The table lamp is metal, shell and fabric, please be careful don't use too much force when you assemble and install it.
2. This table lamp has a polarized plug(one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If it does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use an extension cord unless the plug can be fully inserted. Do not alter the plug.
3. When you don't use the lamp, please switch off the power or try not to touch the lamp base when it is plugged in to save power energy to extend the lifetime.
4. The switch of the table lamp is a touch control switch on the base to control the On/Off and the brightness of the bulbs. There may be some sensitivity to touch control switches.
5. This table lamp features an E26 bulb socket base. It can only be compatible with E26 3-way dimming bulbs. If the bulb is replaced, it cannot be dimmed, and this table lamp is not compatible with wall switches and various smart switches.

1. Before installing, cleaning lamps, and replacing light bulbs, please cut off the power supply.
2. Do not look directly at the lighted bulb. Otherwise, it will be a bit dazzling in a short time.
3. Keep the lamp away from material that may burn.
4. Do not touch the bulb while it is lit or immediately after turning off the lamp.
5. Do not use outdoors, suggest indoor use only. It is non-waterproof.
6. Do not plug or unplug the power cord with wet hands.
7. Do not use this product in humid environments or at high temperatures.
8. Do not use it to exceed the voltage, the proper voltage for the US is AC110-120V,60Hz.
9. If you want to replace the light bulb, please note that the maximum accepted wattage is 60W.
10. Please stop using it if there are serious defective issues found in the product.
