Blink

8

3. Press the "SET ON/OFF" button to confirm the minute setting and enter the alarm sound setting.

The corresponding ringtone indicator will light up

4. Press the "SET-" or "SET+" button to select the alarm sound:

RAD: The alarm sound is the radio and the "RADIO" indicator will light up

Note: The default alarm sound is radio, 87.5MHz. If you choose the radio as the alarm sound, the last channel you listen to will be the ringtone.

RAD

9

BUZ: The alarm sound is buzzer and the "BUZZER" indicator will light up

BUZ

5. Press the "SET ON/OFF" button to confirm and exit the alarm setting.

Note:

When you select the alarm sound, if there is no other operation, the alarm sound will last for 10 seconds and then exit the alarm setting.

10

Alarm Volume Adjustment

1. Press "VOL+" or "VOL-" button to adjust the alarm volume, 5-30 levels are adjustable.
2. Long press "VOL+" or "VOL-" for quick adjustment.
3. When you adjust the volume, you can listen for 5 seconds to confirm whether the volume is at the preferred level.

Note:

You can adjust and save the alarm volume in any mode except radio mode.

Turn on/off Alarm

1. Press and hold the "SET ON/OFF" button for 2 seconds to turn on/off the alarm.
2. When the alarm is turned on, the corresponding indicator (RADIO/ BUZZER) will be light up. The alarm will go off on the set alarm time.
3. When the alarm is turned off, the corresponding indicator (RADIO/ BUZZER) will not appear. The alarm will not go off.

Stop Alarm

1. When the alarm goes off, press any top panel button except the "SNOOZE/ DIMMER" button to stop the alarm. It will ring the next day at the same time.
2. If there is no other operation, the alarm will stop after 30 minutes.

11

SNOOZE

When the alarm goes off, you can press the "SNOOZE/DIMMER" button to snooze for a while. After 9 minutes, the alarm will go off again.

1. The alarm can snooze 6 times. After the seventh snooze, the alarm will go silent.
2. If no action is taken when the alarm goes off, the alarm will stop after 30 minutes.

FM Radio Feature

Set up FM antenna

Extend the FM wire antenna fully and vary the direction for the best FM reception.

FM Antenna

12

AUTO Search FM Channel

1. Press and hold the "RADIO ON / OFF / SCAN (long press)" button for 2 seconds to turn on the radio.
2. It will automatically start searching for radio stations from 87.5MHz to 108MHz. The searched radio channels will be stored automatically; up to 99 channels can be stored.

Auto-Search the channels Appear when the radio is on

13

Manually Search FM Channel

1. Short press the "RADIO ON / OFF / SCAN (long press)" button to turn on the radio.
2. Press and hold the "SET-/SET+" button for 2 seconds to search the channel, when a radio station is found, stop searching and play the searched radio channel.

Automatic off Timer

1. When the radio turns on, short press the "SLEEP TIMER" button to enable the automatic off timer. The "SLEEP" indicator and the sleep time will appear (The default sleep time is 5 minutes with "05" on the LED display).

Select timer time Light up

2. By pressing again the "SLEEP TIMER" button to cycle select 5, 30, 45, 60, 75, 90, 105, 120 minutes or OFF. ("OFF" means the timer is disabled.)

Using the Dimmer

Press the "SNOOZE/DIMMER" button to set the display brightness to Bright/30% Dim/50% Dim/75% Dim/90% Dim/OFF.

Note:

When the alarm is triggered, this button plays the role of "snooze" instead of "dimmer".

15

Wireless charging

Place your phone in the "WIRELESS CHARGER" position and the top panel indicator will light up if the phone has been placed correctly. When fully charged, the light will go out.

Indicator

16

USB Phone Charging Port

USB charging port for charging your mobile phone.

Battery Backup

The battery will maintain all settings if the power is interrupted. There will be no display and the ALARM will not sound under battery power. If there is no battery and the power is interrupted, the ALARM/TIME/RADIO will need to be reset.

Care of Your Clock

Replace the backup battery annually or store the clock without a battery when not in use. A soft cloth or a paper towel may be used to clean your clock. Do not use any corrosive cleaner or chemical solutions on the clock. Keep the clock clean and dry to avoid problems.
