

TOWELL PRODUCT MANUAL

Please read carefully before use, and keep it properly for later reference.

Information to User

2.Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

1

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body. Use only the supplied antenna.

Data Storage

TF Card storage (1)

Insert a TF card to store recordings locally. Playback is accessible via the TF card.

(1) 32GB supports 7-day playback, 64GB supports 14-day playback, 128GB supports 30-day playback.

(2) When the TF card is full, new recordings will overwrite the oldest data.

Data Storage(2)

What is cloud storage?

Cloud storage is a safe and reliable cloud video storage service for smart device users.

Why buy cloud storage?

(1) Stable and reliable: Cloud recording will not lose data due to damage to the memory card, and there is no need to worry about the leakage of private data due to the memory card being stolen.

(2) Data security: Cloud video will not be lost due to the device being stolen or damaged. When the device is stolen or damaged, the previous video will remain in the cloud within the validity period of the cloud video. The owner can view and download it anytime, anywhere. For "video evidence that cannot be stolen".

8

Steps to purchase cloud storage

Click the "Subscription" button in the device list to enter the cloud storage package interface and then you can buy Cloud storage.
