Tower Fan x1

(base set screw x4, screwdriver x1)

Product	WindMaster Smart Tower Fan	
Model No.	TF-01	
Input	120V~ 60Hz	
Rated Power	50W	
Dimensions	931.5*315*315mm/36.6*12.4*12.4inch	
Battery Type	CR2025,3V	

Control Panel	b. Display Screen	c. Air Outlet
Front Base	e. Carry Handle	f. Set Screw
Air Inlet	h. Blade (built-in)	i. Rear Base
Power Cord (with plug)	k. Plastic Screw Nut	I. Remote Control

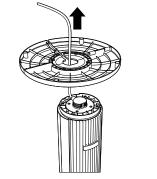

2. Remove the screw nut on the bottom of the fan.

5. Assembly Instructions

1. Install the front base and the rear base properly.

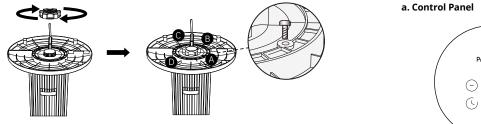

3. Thread the power cord through the center hole of the installed base.

Do not connect the product to the power source until assembly is complete.

Then tighten the 4 base set screws in turn.

4. Attach the base to the fan and secure by screwing the screw nut.

5. Insert the power cord into the cord groove.

6. After assembly, place the fan upright on the ground.

the use of the tower fan.

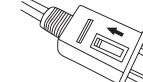

## Power Cord and Plug Repair Instructions This product features a plug with fuse for overload protection. If the

fuse blows, it indicates that the product may be overloaded or short-circuited. Please unplug the product immediately and follow the repair instructions below.

ction indicated

b. Remove the damaged fuse carefully and replace it with a new fuse. Install the fuse in place, and slide the fuse cover at the top of the plug toward the power cord side.

1. The damaged fuse should be placed in corresponding waste bin. 2.If you cannot see the fuse when you open the fuse cover, please contact a qualified technician to replace the power cord. Otherwise, if the plug is damaged, please discard the product.

3.If you need more information on how to safely replace a fuse, please contact our customer service for assistance.

# 10. Notice

## **FCC Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provided reasonable protection against harmful interference in a residential installation.

energy and, if not installed and used in accordance with the instructions, any cause harmful interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

This equipment generates, uses and can radiate radio frequency

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from
- that to which the receiver is connected. (4) Consult the dealer or an experienced radio/ TV technician for help.
- To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.

# 11. Warranty

**12-month** warranty for the tower fan.

**60-day** money-back guarantee for quality issues.

Note: Damages caused by the disregard of this user manual are not subject to warranty.
