This white refrigerator with bottom freezer has large, flexible storage options for a busy household.

- Bottom freezer
- Brushed metal handles
- ActiveSmart™ helps keep food fresher for longer

DIMENSIONS

Height	67 1/2"
Width	31 1/8"
Depth	27 3/8"

FEATURES & BENEFITS

ActiveSmart™ Foodcare

Every time you open your refrigerator, the temperature around your food changes. ActiveSmart™ foodcare adjusts airflow to create a stable temperature, helping your food stay fresher for longer.

Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

DESIGN QUALITY

Our refrigerators are designed and built using quality materials. We use pre-painted steel on our refrigerators and solid glass for shelving.

SIMPLE STORAGE

This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

SPECIFICATIONS

Capacity

Total gross capacity	17.5cu ft
Volume freezer	5.2cu ft
Volume refrigerator	12.3cu ft

Consumption

Energy usage	454kWh/year
In-use energy carbon	166.4kgCO2e/year

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
