Locking Tip Adjustment

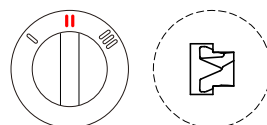

Use a small flathead screwdriver or similar tool to switch the knob.

Adjust the locking tip according to the lock slot specification of your device.

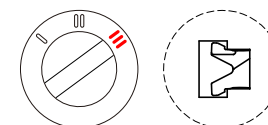

Noble Slot

Nano Slot

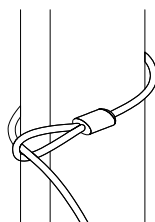

Standard Slot

⚠ The Knob can only be switched when the lock is unlock.

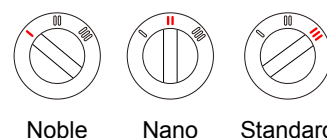

Lock

①

Wrap your cable around an immovable object, by crossing the lock body, through the loop, on the opposite end of the cable.

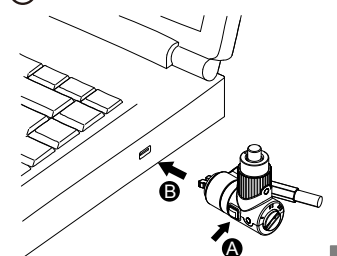

②

You must adjust the locking tip **before** inserting the lock into your device.

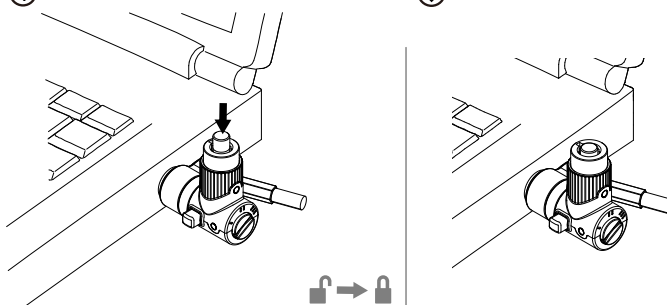

Adjust the locking tip according to the lock slot specification of your device.

③

Press the release button and insert the locking tip into the slot.

④

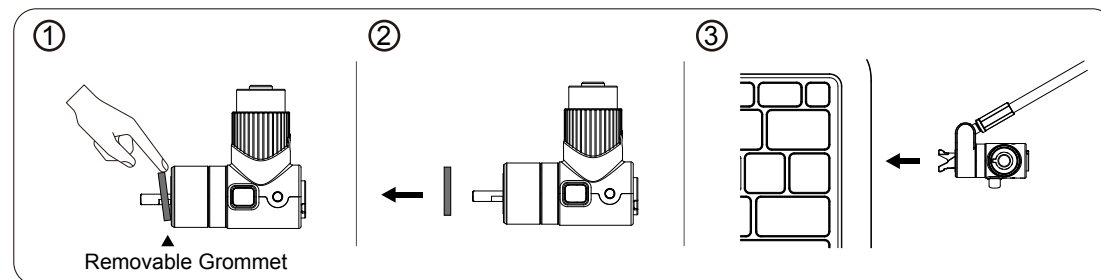

Push the button to lock the device.

Unlock

Removable Rubber Grommet

For computers that have a tighter security lock fit it is necessary to remove the grommet on the cable lock.
