1. Product Overview

This USB Type-C Magnetic adapter enables **Power Delivery (PD) fast charging** for legacy MagSafe 1 MacBook Air / Pro models via a USB Type-C port, delivering up to **100W output power**. Featuring a magnetic design to prevent accidental disconnection.

1. **Magnetic Connection**: Securely attaches to MagSafe ports, reducing wear from repeated plugging/unplugging.
2. **PD 3.0/2.0 Compatibility**: Dynamically adjusts voltage (5V/9V/12V/15V/20V) based on device requirements.
3. **Power Coordination**: Requires pairing with a PD-compatible charger to match the MacBook's power demands.
