## Package Include

02

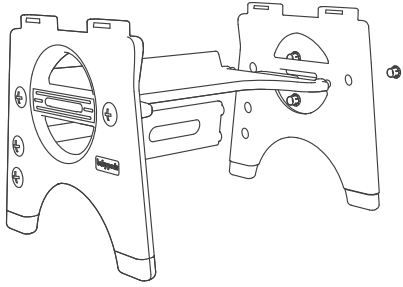

## Table Installation Steps

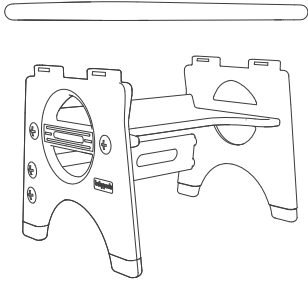

Insert the table riser and table shelf into the groove in the middle of the table side panel, and install the nut at the position shown in the figure to strengthen the connection.  
(You can tighten it with a coin/screwdriver provided by us.)

03

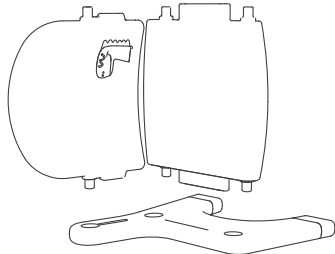

Connect the other side of the table shelf to the other side of the table side panel in the same way.

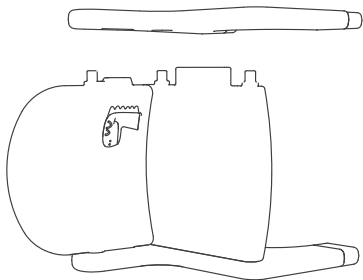

Put the grooved side of the tabletop down and align it with the corresponding position on the side panel of the table. Once aligned, you will need to press firmly on the table top to secure the table top.

04

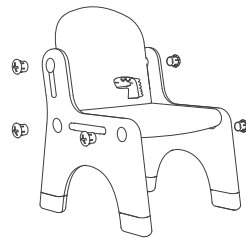

Put a chair side panel flat on the ground, insert the chair backrest and chair seat into the corresponding holes on the chair side panel, you need to squeeze the backrest and seat to make them fit tightly with the chair side panel.

In the same way, insert the other side panel of the chair on the corresponding column of the backrest and seat surface, and squeeze the side panel to make it fit the backrest and seat surface.

05

With the nut fastening graphical position.
