With Wi-Fi and a Snap-on tool, automatically upload and access images and vehicle system reports in the Snap-on Cloud.

CAPTURE

- **Capture and Auto-load Reports:** With the most current Snap-on software loaded on your tool, capture vehicle system reports on your ZEUS®, VERUS® Edge, APOLLO-D₈™, MODIS Edge™, MODIS Ultra™ or SOLUS Edge™
- **Image Storage for ZEUS, VERUS Edge and Diagnostic Thermal Imager:** Take pictures and screen shots with ZEUS or VERUS Edge, create images with the Diagnostic Thermal Imager Elite and store them all in the cloud
- **Direct Repair Order linkage:** Create permanent links that take you directly to the saved image or vehicle system report that you can add to and access from your shop management software

CATEGORIZE

- **Mark Files:** Identify images as 'Known good' or 'Known bad'
- **Tag Files:** File tagging makes keyword search fast for future reference
- **Get files:** By customer name, VIN or sort by date allowing for easy retrieval

COLLABORATE

- **Compare and Share:** Use with others to facilitate diagnosis and repair
- **Be the Expert:** Share 'Known good' or 'Known bad' images with other techs

COMMUNICATE

- **My Network:** Add up to 20 contacts, easily share files with your colleagues and contacts using My Network
- **Flexible Sharing:** Communicate vehicle system reports and images via text or email
- **Speed It Up:** Share pre-scan reports and images with customers to receive quick approvals for repairs and post-scans with insurance companies to confirm OEM repair requirements have been met

The Importance of Pre-scan and Post-scan Reports

- Performing a pre-scan vehicle system report spots any hidden issues and makes the customer aware of problems. The pre-scan code identification speeds the diagnosis and repair
- When the customer picks up their vehicle the post-scan vehicle system report may be given to the customer to confirm problems have been fixed, aiding in customer satisfaction

INTELLIGENT DIAGNOSTICS SOFTWARE

Comprehensive enough to provide all the diagnostic and repair tips you need, smart enough to skip the ones you don't!

All the functions and repair tips you need to diagnose, repair and manage any issue. But unlike any software before, it practically anticipates your next move by guiding you through every step needed to find the solution, while avoiding the steps you don't.

It displays only the information that's relevant to the specific vehicle and fault code. From Technical Service Bulletins and scanner Smart Data to SureTrack® Expert Information and ever increasing monthly coverage, Intelligent Diagnostics is the most sophisticated and intuitive software we've ever created.

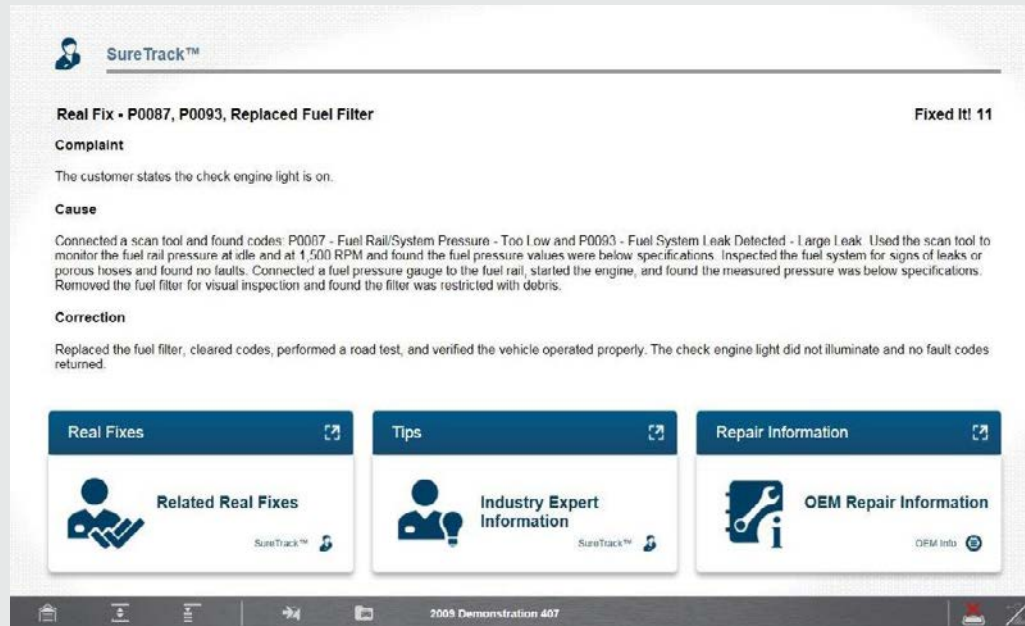

Accessing all the Intelligent Diagnostics functions requires a software agreement or subscription program enrollment.

[See Diagnostic Tool Comparison for eligible tools.](#)

The Fastest Path to Fixed

SureTrack® expert information is integrated in the tool with a current Snap-on software upgrade. Simply connect the diagnostic platform to Wi-Fi to get Real Fixes and verified parts replacement records harvested from millions of actual repair orders.

SureTrack® online access via web browser available for ZEUS®, APOLLO-D₈™, and VERUS®, MODIS™ and SOLUS™ families. Online access requires authorization code, which is included on your purchase receipts.

Over 37 Million SureTrack® Real Fixes!

**New content is continually added
and with the latest software you
instantly access:**

- Verified parts replacement records showing successful fixes
- Expert information hot-linked directly from diagnostic trouble codes
- Exclusive insight based on experience from millions of repair orders
- Vehicle-specific fixes based on symptoms, codes and mileage
- Definitive, reliable answers, validated by SureTrack® expert technicians

ZEUS® INTELLIGENT DIAGNOSTICS DATA PLAN
