Essential Video Doorbell Wire-Free Quick Start

Hello! You're just a few steps away from getting your doorbell up and running.

1

Charge the battery to 100%.
The battery LED lights red during charging, then turns green when the battery is fully charged.

2

Download the Arlo app from the App Store or Google Play.

3

Follow the step by step instructions in the Arlo app to install.

What's in the box

Doorbell and plate
(these parts are attached)

Angled mounting plate

Release pin (keep
in a safe place)

Rechargeable battery

Battery charging cable (works
with most power adapters)

Wall screws and anchors

Optional wire extensions, wire
fasteners, and extra screws

Tools

- A Phillips screwdriver is required to install the doorbell (not provided).
- You might also benefit from having a drill, a level, and a ladder (to reach the chime).

If you choose to wire your doorbell

If you choose to wire your wire-free Essential Video Doorbell, the voltage must be 8 – 24VAC and a 10VA transformer is required.

If your voltage doesn't meet the power requirements, and you need to install or upgrade a transformer, contact a licensed electrician or visit arlo.com for information about installation services.
