

M-ZR-PPMS

PPMS control panel

KEY POINTS

- PPMS message broadcast control
- Front access plastic enclosure
- 4 vandal-proof stainless steel buttons
- Quick and easy installation

- The M-ZR-PPMS is a 4-button box for triggering pre-recorded PPMS/PPI/POI messages.
- It is compatible with ARM-911A, EVAMATRIX, EVP-1010-P, NAI-1104 and IP-1015BX products.
- It can trigger up to 4 different messages.
- Each button can be programmed according to the message reader it is associated with in order to broadcast the desired message.
- Each button operates in ON/OFF mode. The first press triggers the message, the second stops it.

- Several M-ZR-PPMS units can be cascaded to meet all your needs.
