**To Customers**  
Sufficient expertise is required for TV installations. Be sure to subcontract the installation to a Sony dealer or licensed contractor and pay adequate attention to safety during the installation.

**Before setting up your TV**  
Some TV models are packaged with a detached Table-Top Stand so you can mount your TV to a wall right away. See "Installing the TV to the Wall" if you want to mount the TV to a wall. If you are not mounting the TV to a wall, you will need to attach the Table-Top Stand (refer to the Setup Guide).  
Be sure to consider the following while setting up your TV:

- Disconnect all cables when carrying the TV.
- Two or more persons (three or more persons for 214.8 cm (85 inches), four or more persons for 247.7 cm (98 inches) and above TV) are needed to transport a large TV set.
- Correct hand placement while carrying the TV is very important for safety and to avoid damage.
- When handling or mounting the TV set, do not lay down the TV (for applicable TV model only).

**Securing the TV**  
Sony strongly recommends taking measures to prevent the TV from toppling over. Unsecured TVs may topple and result in property damage, serious bodily injury or even death.

**Preventing the TV from Toppling**  
• Secure the TV to a wall and/or Stand.  
• Do not allow children to play or climb on furniture and TV sets.  
• Avoid placing or hanging items on the TV.  
• Never install the TV on:  
— Shaky, unstable and/or uneven surfaces.  
— Furniture that can easily be used as steps, such as a chest of drawers.  
• Install the TV where it cannot be pulled, pushed or knocked over.  
• Install the TV so that the TV's Table-Top Stand does not protrude out from the Stand (not supplied). If the Table-Top Stand protrudes out from the Stand, it may cause TV to topple over, fall down, and cause personal injury or damage to the TV.

**Recommended Measures to Secure the TV**  
Refer to the following measures when securing your TV to a Stand (not supplied).

- Secure the Stand for the TV.  
Make sure the Stand can adequately support the weight of the TV. Use two angle brace (not supplied) to secure the Stand. For each angle brace use the appropriate hardware to:  
• Attach one side of the angle brace to the wall stud.  
• Attach the other side to the Stand.

**2 Secure the TV to the Stand.**  
Use the optional hardware listed as follows (not supplied):  
• M6 machine screws (screwed into the TV's Table-Top Stand) (XR-98X90L only).  
• M6 machine screws (screwed into the TV's rear cover) (except XR-98X90L).  
• A screw or similar (attach it to the Stand).  
• Rope or chain (strong enough to support the weight of the TV). Make sure that there is no excess slack in the rope or chain.
