

Quick Start Guide

Lenovo

KEYBOARD

KB331U

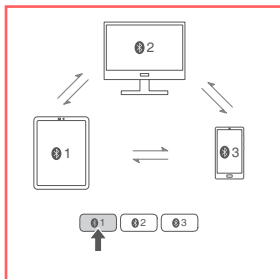

- 1 Indicator light 2 Power switch 3 USB-C connector

ⓘ The keyboard layout may vary by country or region, please refer to the actual product.

SWITCHING BETWEEN MULTIPLE DEVICES

The keyboard is compatible with Android™, iOS®, and Windows®, and can connect to a maximum of three different devices.

Press  in the upper left corner to effortlessly switch between devices.

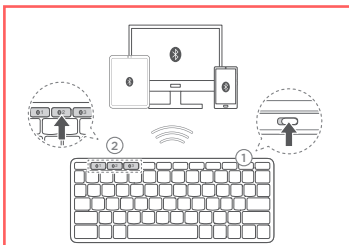

USING THE KEYBOARD

Connect via Bluetooth

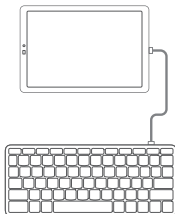

- ① Turn on the power switch.
- ② Press and hold one of  for 3 seconds until the Bluetooth indicator starts flashing.
- ③ Add "Lenovo Wireless KB" from your device's Bluetooth settings.

🕒 When first powered on, the keyboard automatically enters pairing mode.

Connect via a USB-C cable

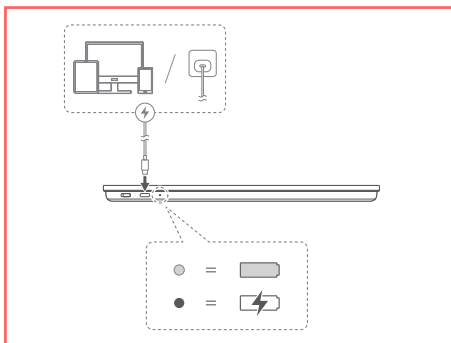

Connect the keyboard to the device via a USB-C cable.

🕒 When connected via a data cable, the keyboard can be used normally without turning it on, but the Bluetooth connection cannot be enabled at this time.

CHARGING THE KEYBOARD

Light status		Battery status
○	White (solid on)	Fully charged
●	Amber (solid on)	Charging

- Don't place heavy or sharp items on the keyboard to prevent potential damage.
- Don't use your device in temperatures below 0°C or above 40°C.
- Don't store or transport your device in temperatures below -20°C or above 60°C.
