- Customize with your own kitchen cabinetry or purchase our stainless steel door panel accessory

DIMENSIONS

Height	84"
Width	23 3/4"
Depth	24"

FEATURES & BENEFITS

Variable Temperature Zones

Food is stored in two separate zones. You have the choice of three food modes: Fridge 32°F to 44°F, Pantry 52°F to 56°F and Chill 29°F to 32°F.

Mix & match

Integrated Column Refrigeration gives you the freedom to mix and match. Different sized Column Fridges and Freezers can be installed separately or paired. Finish them with our stainless steel door panels or customize to match your own kitchen cabinetry.

Clever energy

Our Energy Star certified ActiveSmart™ Foodcare Fridges & Freezers adapt to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

Appealing illumination

Bright LEDs light up the ceiling, shelves, bins and tray in both refrigerator and freezer, making it easy to find your food and creating a welcoming glow in your kitchen for those midnight snacks.

Design quality

The premium design and quality finish includes a steel interior lining as well as soft-close, full extension metal shelf runners for easy access and robust glass shelving.

Easy install

Integrated Column Refrigerators and Freezers have been developed to make their installation easy. The joiner kit is included when pairing refrigerator and freezers. All models come with front adjustable levelling feet and they've been designed to easily slide into place as separate units.

Perfect fit

These models fit flush and have only 1/8" / 3mm gaps around them with no visible hinges or grilles. Our Integrated Column models can be seamlessly hidden behind your cabinetry or you can purchase our stainless steel door panel.
