Diagram 1 illustrates the first step of assembly: attaching the back panel (2) to the frame (3). The back panel is shown being aligned with the frame. A corner bracket (D) is positioned at the corner of the back panel, and a screw (A) is shown being inserted through the bracket into the frame. A dashed line indicates the alignment of the panel with the frame. A circular inset provides a detailed view of the corner bracket (D) being secured with a screw (A) into the frame's corner.

Diagram illustrating the assembly of a cabinet door. The main assembly shows four panels (1, 2, 3, 4) being attached to a frame (6) using screws (B). Two circular insets provide close-up views: the top inset shows the screws (B) being inserted into the frame, and the bottom inset shows a corner bracket (F) being attached to the frame with a screw (F).

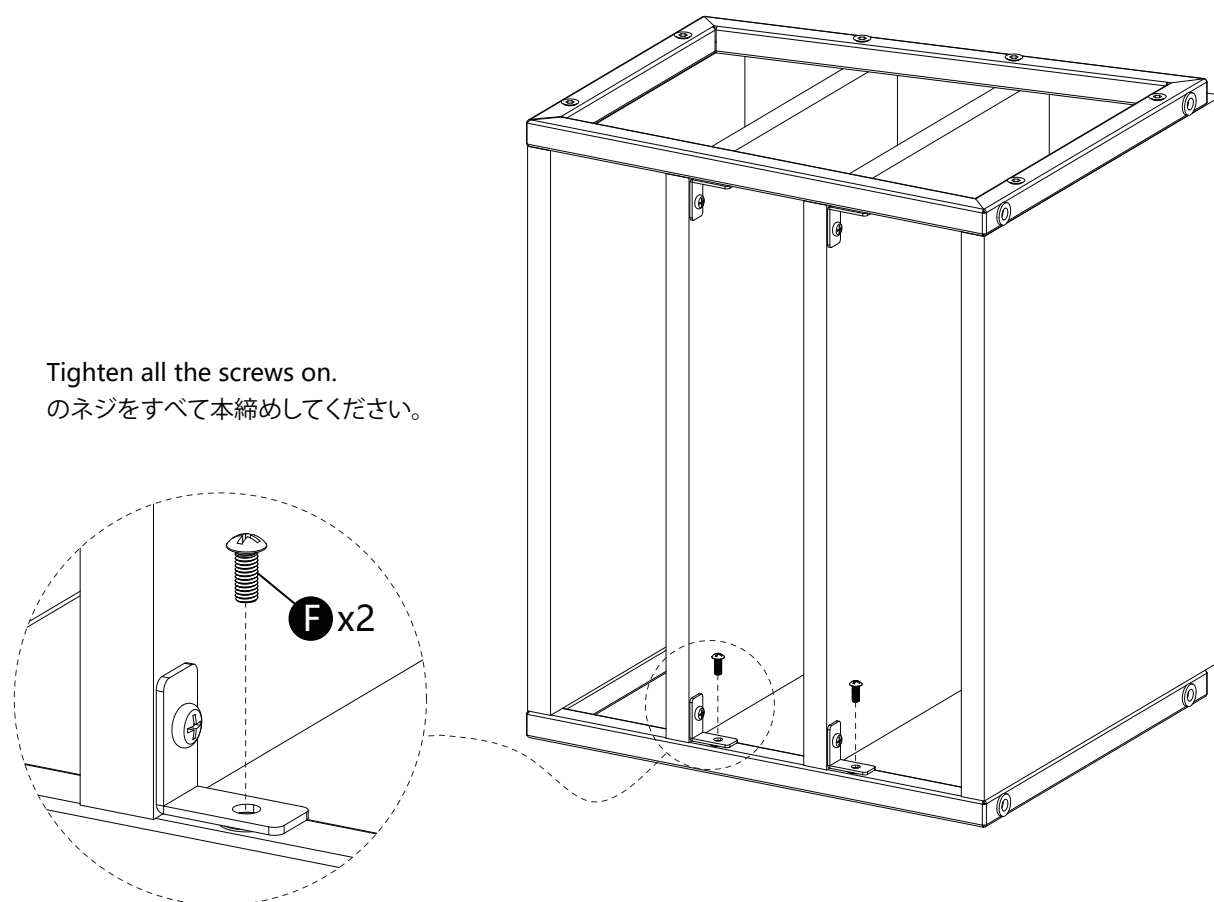

Don't tighten the screws.
