Wall Programming Device

Convenient updating for smart CLIQ keys

Experience a safer
and more open world

CLIQ is a platform for electromechanical keys and cylinders. By inserting the key into the wall programmer, the key's access rights are updated.

Intuitive LED status lighting

Resistant
surface (IP20)

Modern
sleek design

Quick & easy
installation

Compatible with
any CLIQ key

Encrypted communications

Like every CLIQ product, the new Wall Programming Device is backed by decades of ASSA ABLOY investment and innovation in lock and key technologies which secure homes and businesses worldwide.

ASSA ABLOY's new CLIQ Wall Programming Device helps CLIQ keyholders update their access rights faster – which keeps every site user safer.

On key insertion, LED lights indicate updating is under way. A green LED check confirms a successful key update: It's simple and avoids confusion.
